Agenda for 27th GST Council Meeting

04 May 2018

File No: 282/27th GSTC Meeting/GSTC/2018
GST Council Secretariat

Room No.275, North Block, New Delhi

Dated: 25 April 2018

Notice for 27th meeting of the GST Council on 04 May 2018 through video conferencing

Please refer to the meeting notice dated 23 April 2018 for the 27th GST Council Meeting scheduled on 01 May 2018. Many States have requested to reschedule the Council Meeting as 01 May 2018 is a holiday in their States. Keeping this in view, the undersigned is directed to say that the meeting of the GST Council will now be held on 04 May 2018 (Friday) through **Video Conferencing** as follows:

- Friday, 04 May 2018 : 11:30 hours onwards
2. In addition, an Officer's Meeting will be held on 03 May 2018 through **Video Conferencing** as follows:
 - Thursday, 03 May 2018 : 11:00 hours onwards
3. The agenda for the Council meeting is enclosed. Detailed agenda notes shall be sent in due course.
4. Respective State NIC units may be contacted for details regarding the Video Conference.
5. Please convey the invitation to the Hon'ble Members of the GST Council to attend the meeting.

-Sd-

(Dr. Hasmukh Adhia)

Secretary to the Govt. of India and ex-officio Secretary to the GST Council

Tel: 011 23092653

Copy to:

1. PS to the Hon'ble Minister of Finance, Government of India, North Block, New Delhi with the request to brief Hon'ble Minister about the above said meeting.
2. PS to Hon'ble Minister of State (Finance), Government of India, North Block, New Delhi with the request to brief Hon'ble Minister about the above said meeting.
3. The Chief Secretaries of all the State Governments, Delhi and Puducherry with the request to intimate the Minister in charge of Finance/Taxation or any other Minister nominated by the State Government as a Member of the GST Council about the above said meeting.
4. Chairperson, CBEC, North Block, New Delhi, as a permanent invitee to the proceedings of the Council.
5. Chairman, GST Network

Agenda items for the 27th Meeting of the GST Council on 04 May 2018

1. Confirmation of the Minutes of 26th GST Council Meeting held on 10 March, 2018
2. Deemed ratification by the GST Council of Notifications, Circulars and Orders issued by the Central Government
3. Decisions of the GST Implementation Committee (GIC) for information of the Council
4. Review of Revenue position
5. Clarification regarding applicability of Integrated Goods and Services Tax on goods supplied while being deposited in a warehouse
6. Change in the shareholding pattern of GSTN
7. Incentivizing Digital Payments in GST regime (Carry forward item from the 25th Council Meeting)
8. Imposition of Cess on Sugar under GST and reduction of GST rate on Ethanol
9. New System of Returns Filing
10. Any other agenda item with the permission of the Chairperson
11. Date of the next meeting of the GST Council

Discussion on Agenda Items

Agenda Item 1: Confirmation of Minutes of 26th GST Council Meeting held on 10 March, 2018

Draft Minutes of the 26th GST Council Meeting held on 10 March, 2018

The twenty sixth Meeting of the GST Council (hereinafter referred to as ‘the Council’) was held on 10 March, 2018 in Vigyan Bhawan, New Delhi under the Chairpersonship of the Hon’ble Union Finance Minister, Shri Arun Jaitley (hereinafter referred to as the Chairperson). A list of the Hon’ble Members of the Council who attended the meeting is at **Annexure 1**. A list of officers of the Centre, the States, the GST Council and the Goods and Services Tax Network (GSTN) who attended the meeting is at **Annexure 2**.

2. The following agenda items were listed for discussion in the 26th Meeting of the Council: –
 1. Confirmation of the Minutes of 25th GST Council Meeting held on 18th January, 2018
 2. Deemed ratification by the GST Council of Notifications, Circulars and Orders issued by the Central Government
 3. Decisions of the GST Implementation Committee (GIC) for information of the Council
 4. Review of Revenue position for the month of January and February, 2018 under GST
 5. Accounting for provisional settlement of IGST and devolution of balance IGST at the end of any financial year
 6. Amendments to Anti-Profiteering Rules
 7. Grievance Redressal Mechanism in GST regime in light of recent judgements of Hon’ble High Courts of Allahabad and Mumbai
 8. Extension of suspension of reverse charge mechanism under section 9(4) of the CGST Act, 2017, section 5(4) of the IGST Act, 2017 and section 7(4) of the UTGST Act, 2017 and provisions relating to TDS (section 51) and TCS (section 52)
 9. Minutes of 6th and 7th Meeting of Group of Ministers (GoM) on IT Challenges in GST Implementation for information of the Council and discussion on GSTN issues
 10. Decision of date of reintroduction of e-Way Bill requirement
 11. Status of e-Wallet scheme for exports and decision on continuance of payment of IGST through advance authorization, EPCG, etc. / exemption to EOU and SEZ units
 12. New System of Return Filing

13. Applicability of Goods and Services Tax on Extra Neutral Alcohol (ENA)

14. Any other agenda item with the permission of the Chairperson

i. Consideration of representation dated 22.09.2017 by M/s Honda Siel Power Products as per the Directions of the Hon'ble High Court of Delhi

ii. Procedure to be followed for grant of *ad hoc* exemption on imports under Section 25 (2) of the Customs Act, 1962

iii. Appointment of Deputy Commissioner as member of Authority for Advance Ruling-Amendment in Rule 103 of the CGST Rules, 2017

iv. Minutes of meeting on GST on Liquor license fee convened on 20th February 2018

15. Date of the next meeting of the GST Council

3. The Hon'ble Chairperson welcomed the Hon'ble Members of the Council. Before taking up the Agenda items, the Hon'ble Chairperson placed on record the gratitude of the Council for the services rendered by its three outgoing Members, namely, Shri Zenith M. Sangma from Meghalaya; Shri T.R. Zeliang from Nagaland and Shri Bhanu Lal Saha from Tripura. He also welcomed Shri Conrad K. Sangma, the Hon'ble Chief Minister of Meghalaya as the new Member of the Council. He observed that nominations to the Council from the other two States, namely Tripura and Nagaland, should be expedited. After these preliminary comments, the Hon'ble Chairperson took up discussion on the Agenda items.

Discussion on Agenda items

Agenda item 1: Confirmation of the Minutes of the 25th GST Council meeting held on 18 January, 2018

4. Dr. Hasmukh Adhia, Union Finance Secretary and Secretary, GST Council (hereinafter referred to as 'the Secretary') informed that the Government of Gujarat had requested for a change in paragraph 14.12 of the Minutes relating to the version of the Commissioner of Commercial Tax (CCT), Gujarat. He requested Shri Shashank Priya, Joint Secretary, GST Council, to brief about the proposed change. The Joint Secretary, GST Council, informed that the recorded version of the CCT, Gujarat, was a brief summary of his intervention during the Council Meeting and that the CCT, Gujarat, had sent a revised draft suggesting incorporation of his version in greater detail. He added that the proposed revised draft for paragraph 14.12 could be suitably recorded as the version of the CCT, Gujarat, as follows:

'Dr. P.D. Vaghela, CCT, Gujarat, stated that two options were discussed by the Committee on Return. Option I supported by some of the States envisages uploading of supply and receipt details simultaneously by the taxpayer. Option II envisages only the details of supply to be uploaded by the supplier. In his option, there are two models, say, Model A which envisages grant of provisional credit to the recipients for missing supplies and Model B which envisages admissibility of input tax

credit only if supplier uploads the invoices. The model proposed by Shri Nandan Nilekani is nothing but Model B of option II with a new feature that credit will be allowed even when tax is not paid by the supplier.

14.12.1. The CCT, Gujarat, further stated that the model proposed by Shri Nandan Nilekani was a harsher one, which was not earlier agreed to by the Law Committee. He stated that in this model, too much of power was being placed in the hands of the suppliers. He further stated that in the model proposed by Shri Nandan Nilekani (i.e. revised version of Model B), once an invoice was uploaded by the supplier and accepted by the buyer, the buyer would get credit automatically. However, the structure on which GST has been designed has two elements: (i) the seller uploads the invoices; (ii) the payment of tax against the invoice should have been made. If the proposed model was accepted, where the buyer would get credit on the basis of invoice uploaded by the seller without ascertaining payment of tax against the invoice, this would create a huge problem in IGST transfer as funds might be transferred from the State of the supplier to the State of the recipient, whereas the supplier might not have paid the tax. This would lead to a situation of tax administration of one State running after the defaulting suppliers located in another State, which would be very difficult.

14.12.2. He further stated that under Model A of Option II, input tax credit was being made available provisionally on the basis of missing invoices uploaded by the buyer subject to its acceptance later by the seller. He stated that this model could be acceptable to trade and chartered accountants, but Model B of option II would never be acceptable to the stakeholders. He added that for 98% of taxpayers, average number of invoices to be uploaded may be only 9, but a single chartered accountant or consultant handled returns of 100 to 150 taxpayers, both as a supplier and recipient. He gets all the details from taxpayers just 3-4 days before the due date of return filing, and he would need to verify how many invoices were uploaded and all this would lead to a lot of difficulties. The stakeholders would find it easier to receive a mismatch report and accept reversal of credit if mismatch persisted beyond a period of time, as may be approved by the Council. He stated that the best model would be where the buyer accepts invoices with a mechanism for provisional credit for missing invoices of the buyer. He stated that in the said Model, Departmental intervention would not be needed. He suggested to accept Model A of Option II with provisional credit for the buyer subject to payment of tax by the supplier.'

4.1. The Council agreed to replace the version of the CCT, Gujarat, recorded in paragraph 14.12 of the Minutes, with the one proposed above. The Secretary invited any other comments on the Minutes.

4.2. The Hon'ble Minister from Kerala stated that his version recorded in paragraph 6.5 of the Minutes ('The Hon'ble Minister from Kerala suggested that Rs.1 lakh crore could be taken out from the accumulated IGST account and distributed to the States on provisional basis.') should be replaced by the following version: 'The Hon'ble Minister from Kerala suggested that the amount in excess of Rs.1 lakh crore could be taken out from the accumulated IGST account and distributed to the States on *pro rata* basis. The criteria can be the proportionate rate of the total amount of the IGST credit hitherto distributed among the States.' The Council agreed to replace the version of the Hon'ble Minister from Kerala recorded in paragraph 6.5 of the Minutes, with the one proposed above.

4.3. The Hon'ble Minister from Haryana stated that his version recorded as the first sentence in paragraph 24.5 of the Minutes ('The Hon'ble Minister from Haryana stated that similar exemption should be available for his State Government for supplies by Pollution Control Board and HSIIDC (Haryana State Industrial Development Corporation') should be replaced with the following: 'The Hon'ble Minister from Haryana stated that the exemption of the share of profit petroleum paid to the Central Government from the purview of the levy of GST was similar to various contracts that the State Governments enter into with business entities and the same should also be exempted. The agencies of the State Government of Haryana like HSIIDC (Haryana State Industrial Infrastructural Development Corporation) and Pollution Control Board (PCB) have such contracts in place.' The Council agreed to replace the version of the Hon'ble Minister from Haryana recorded in paragraph 24.5 of the Minutes, with the one proposed above.

5. In view of the above, **for Agenda item 1**, the Council decided to adopt the Minutes of the 25th Meeting of the Council with the following changes:

5.1. To replace the version of the CCT, Gujarat, in paragraph 14.12 of the Minutes with the following:

'Dr. P.D. Vaghela, CCT, Gujarat, stated that two options were discussed by the Committee on Return. Option I supported by some of the States envisages uploading of supply and receipt details simultaneously by the taxpayer. Option II envisages only the details of supply to be uploaded by the supplier. In his option, there are two models, say, Model A which envisages grant of provisional credit to the recipients for missing supplies and Model B which envisages admissibility of input tax credit only if supplier uploads the invoices. The model proposed by Shri Nandan Nilekani is nothing but Model B of option II with a new feature that credit will be allowed even when tax is not paid by the supplier.

14.12.1. The CCT, Gujarat, further stated that the model proposed by Shri Nandan Nilekani was a harsher one, which was not earlier agreed to by the Law Committee. He stated that in this model, too much of power was being placed in the hands of the suppliers. He further stated that in the model proposed by Shri Nandan Nilekani (i.e. revised version of Model B), once an invoice was uploaded by the supplier and accepted by the buyer, the buyer would get credit automatically. However, the structure on which GST has been designed has two elements: (i) the seller uploads the invoices; (ii) the payment of tax against the invoice should have been made. If the proposed model was accepted, where the buyer would get credit on the basis of invoice uploaded by the seller without ascertaining payment of tax against the invoice, this would create a huge problem in IGST transfer as funds might be transferred from the State of the supplier to the State of the recipient, whereas the supplier might not have paid the tax. This would lead to a situation of tax administration of one State running after the defaulting suppliers located in another State which would be very difficult.

14.12.2. He further stated that under Model A of Option II, input tax credit was being made available provisionally on the basis of missing invoices uploaded by the buyer subject to its acceptance later by the seller. He stated that this model could be acceptable to trade and chartered accountants, but Model B of option II would never be acceptable to the stakeholders. He added that for 98% of taxpayers, average number of invoices to be

uploaded may be only 9, but a single chartered accountant or consultant handled returns of 100 to 150 taxpayers, both as a supplier and recipient. He gets all the details from taxpayers just 3-4 days before the due date of return filing, and he would need to verify how many invoices were uploaded and all this would lead to a lot of difficulties. The stakeholders would find it easier to receive a mismatch report and accept reversal of credit if mismatch persisted beyond a period of time, as may be approved by the Council. He stated that the best model would be where the buyer accepts invoices with a mechanism for provisional credit for missing invoices of the buyer. He stated that in the said Model, Departmental intervention would not be needed. 5.2. To replace the version of the Hon'ble Minister from Kerala recorded in paragraph 6.5 of the Minutes with the following version: 'The Hon'ble Minister from Kerala suggested that the amount in excess of Rs.1 lakh crore could be taken out from the accumulated IGST account and distributed to the States on *pro rata* basis. The criteria can be the proportionate rate of the total amount of the IGST credit hitherto distributed among the States.'

5.3. To replace the version of the Hon'ble Minister from Haryana recorded in the first sentence in paragraph 24.5 of the Minutes with the following version. 'The Hon'ble Minister from Haryana stated that the exemption of the share of profit petroleum paid to the Central Government from the purview of the levy of GST was similar to various contracts that the State Governments enter into the business entities and the same should also be exempted. The agencies of the State Government of Haryana like HSIIDC (Haryana State Industrial Infrastructural Development Corporation) and Pollution Control Board (PCB) have such contracts in place.'

Agenda item 2: Deemed ratification by the GST Council of Notifications, Circulars and Orders issued by the Central Government

6. The Secretary invited Shri Upender Gupta, Commissioner (GST Policy Wing), CBEC, to make a presentation on this Agenda item. The Commissioner (GST Policy Wing), CBEC, stated that the Notifications No. 02 to 13 of 2018 of Central Tax; Notifications No. 01 to 09 of 2018-Central Tax (Rates); Notification No.01 of 2018 of Integrated Tax; Notifications No. 01 to 10 of 2018 of Integrated Tax (Rate); Notifications No.02 to 09 of 2018 of UT Tax (Rate); and Notification No.01 of 2018 of Compensation Cess (Rate) have been placed before the Council for deemed ratification. Similarly, Circulars No. 29 to 31 and 33 of 2018 issued under the CGST Act have been placed before the Council for deemed ratification. Presentation on this as well as other law related Agenda items is attached as **Annexure 3** of the Minutes.

6.1. The Council agreed to the deemed ratification of the notifications and circulars as listed in the Agenda note which are available on the CBEC website, namely www.cbec.gov.in.

7. **For Agenda item 2**, the Council approved deemed ratification of the notifications and circulars mentioned at paragraph 6 above which are available on the CBEC website, www.cbec.gov.in.

Agenda item 3: Decisions of the GST Implementation Committee (GIC) for information of the Council

8. The Commissioner (GST Policy Wing), CBEC, made a brief presentation summarising the decisions of the GIC (attached as **Annexure 3** of the Minutes). He stated that GIC took a decision by circulation to extend the time limit to file Form GSTR-3B for December, 2017 by two days, i.e. up to 22-01-2018 (implemented by Notification No.02/2018-Central Tax dated 20 January, 2018) and to postpone the implementation of e-Way bill Rules for both inter-State and intra-State movement of goods due to technical glitches as reported by GSTN and it was decided that the rules would come into force from a date to be notified later (implemented by Notification No.11/2018-Central Tax dated 02 February, 2018). He further stated that during the 12th GIC meeting a proposal, to set up a Grievance Redressal Mechanism to address technical glitches in GSTN, was discussed in view of the orders of the Hon'ble High Courts of Allahabad and Mumbai. However, only a limited decision was taken on the issue and Member (GST), CBEC, was authorised to take appropriate decision to comply with the orders of the Hon'ble High Courts of Allahabad and Mumbai relating to delay in filing of various returns and TRAN-1 due to glitches in GSTN and to keep penalty and fine in abeyance. He stated that this issue was before the Council as a separate Agenda item No.7.

8.1. The Commissioner (GST Policy Wing), CBEC, further informed that during the 13th meeting of GIC, the most important decision taken was the approval of revised e-Way bill Rules based on the feedback received from the stakeholders as well as the States. The important changes were highlighted in the presentation. He informed that e-Way bill Rules were notified vide Notification No.12/2018-Central Tax dated 7 March, 2018, and the Council would need to decide the date of its implementation. He further informed that Rule 138(7) of the e-Way bill Rules (providing for mandatory generation of e-Way bills by the transporter for inter-State transport of goods by road where the aggregate consignment value of goods carried in a conveyance is more than Rs. 50,000) was not proposed to be notified immediately. He informed that during the officers meeting held on 9 March, 2018, an amendment was proposed to the e-Way bill Rules that facility extended to Railways (of not generating e-Way bills before commencement of movement of goods by rails and that the same should be produced at the time of giving delivery of the goods) should not be extended to the goods transported by rail by persons other than Railways, such as goods sent by leasing parcel space. In order to implement this decision, the following explanation was proposed to be inserted in Rule 138(2A): Explanation – For the purposes of this Chapter, the expression ‘railways or rail’ does not include ‘leasing of parcel space by railways’. The Council approved the insertion of the proposed explanation in Rule 138(2A) of e-Way Bill Rules.

8.2. The Commissioner (GST Policy Wing), CBEC, stated that the other decisions taken during the 13th GIC meeting were: (i) amendment in relation to transitional credit in Central Goods and Services Tax Rules, 2017, to specify the last date for furnishing FORM GST TRAN-2 as 31 March, 2018 or such period as extended by the Commissioner, on the recommendations of the Council; (ii) change in declaration form to be submitted in FORM GST RFD-01A; (iii) rescinding Notification No.06/2018-Central Tax dated 23 January, 2018 as the IGST Act gave no power to levy late fee on late filing of FORM GSTR-5A (supplier of OIDAR services). The Council took note of the decisions of the GIC.

9. **For Agenda item 3**, the Council took note of the above decisions of the GIC and approved to insert the following explanation in Rule 138(2A) of e-Way bill Rules: “Explanation – For the purposes of this Chapter, the expression ‘railways or rail’ does not include the ‘leasing of parcel space by railways’.”

Agenda item 4: Review of Revenue position for the months of January and February, 2018 under GST

10. The Secretary invited Shri Udai Singh Kumawat, Joint Secretary, Department of Revenue [JS(DOR)] to make a presentation on this Agenda item. The JS(DOR) made a presentation, which is attached as **Annexure 4** to the Minutes. In the presentation, the JS(DOR) stated that the total revenue collection for the month of January, 2018 was Rs. 88,929 crore and for the month of February, 2018, was Rs. 88,047 crore. He stated that the revenue shortfall for all the States for the month of January was lowest so far (Rs. 6,671 crore). He mentioned that the revenue collection during the month of February, 2018 was less as compared to the month of January, 2018 as the total SGST settlement was lesser during the month of February, 2018 (Rs. 13,479 crore) as compared to that during the month of January, 2018 (Rs. 15,068 crore). The total shortfall for the month of February, 2018 has gone up to Rs. 9,079 crore which was more than the Compensation Cess that was collected every month. He pointed that the States with the maximum revenue shortfall for the month of February, 2018 were Himachal Pradesh, Puducherry and Uttarakhand, with a revenue shortfall of 50.2, 48.1, and 44.6 percent respectively. He mentioned that shortfall for Jammu & Kashmir, which had gone down to 28.5 percent in January, 2018 had gone upto 40.8 percent again in February, 2018. He further pointed out that among the category of States with least revenue shortfall, the revenue shortfall of Maharashtra, Delhi and Tamil Nadu in percentage terms during February, 2018 had increased significantly *vis-à-vis* the revenue shortfall during January, 2018. He stated that this was worrying and the States may want to look into it. He stated that the States with the least shortfall in revenue included Uttar Pradesh, Kerala, Sikkim, Rajasthan, Assam, Meghalaya and Goa. He further stated that the top six States in terms of improvement in revenue collection up to February, 2018 were North-Eastern States of Mizoram, Manipur, Nagaland, Arunachal Pradesh, Tripura and Meghalaya. In fact, the States of Mizoram, Manipur, Nagaland and Arunachal Pradesh had gone into surplus during February, 2018. He stated that the revenue gain was on account of increase in settlement amount of IGST going to these States and it showed that the goods consigned to these States were now being accounted for properly as compared to pre-GST days. He further stated that the other States, which had shown net improvement in revenue collection during February, 2018 included Jammu & Kashmir, Andhra Pradesh, Haryana, Assam, Chhattisgarh, Telangana and Gujarat.

10.1. The JS(DOR) stated that better enforcement and compliance could be contributory reasons for improvement. The States of Telangana and Uttar Pradesh had put in detailed monitoring mechanism and they were monitoring the top taxpayers regularly. He also referred to the analysis of the figures of value of goods coming into the States of Maharashtra, Madhya Pradesh and West Bengal on the basis of 'C' Form in the year 2016-17 in comparison with value of goods entering into the States after GST was rolled out and this was done by using the figures of IGST used by taxpayers for payment of SGST with some extrapolation and analysis of those figures. The analysis showed that for the State of West Bengal, the value of goods appears to be under reported as shown entering the State for the period of July, 2017 to March, 2018 (with extrapolation) was approximately to the tune of Rs. 50,000 crore; in Madhya Pradesh, it was around Rs. 60,000 crore and in Maharashtra, it was around Rs.1,50,000 crore. He stated that these were huge amounts and that the other States could carry out a similar exercise to examine taxpayer-wise under reporting of goods coming into their States during pre and post-GST regime. He stated that this analysis showed the need for enhanced enforcement activity.

10.2. The Hon'ble Minister from Jammu & Kashmir stated that States were not able to do a detailed analysis as they were only getting dumped data. The maximum improvement as shown in the presentation is depicted by the North Eastern States which is most counter-intuitive result in terms of what was happening in the past. Earlier number was given in absolute terms but now it was being given in percentage. Therefore, the broad point is established that consumer States are getting benefited. He added that one broad macro-economic reason for sudden drop of revenue specially for Jammu & Kashmir and States like Sikkim and others can be attributed to the fact that the imports into the States had decreased by approximately 30 per cent. He stated that in his State, large Central Sector projects like Konkan Railways paid Rs.14 crore as tax revenue in the month of January, 2018 whereas in the month of February, 2018, it paid only Rs. 27,000 to the State exchequer. The large projects such as Konkan Railways, IRCON and Ambuja Cement had some issues. He added that the shortfall was not necessarily on account of lack of efforts by the State Governments or compliance issue but due to specific reasons such as revenues from Konkan Railways dropping from Rs.14 crore to Rs. 27,000 and revenue from IRCON dropping from Rs.20 crore to Rs.4 crore and reduction in cash deposits as well. He stated that it would be more beneficial to see a macro picture of revenue and then evaluate performance of the States. The Hon'ble Minister from Kerala supported this suggestion and stated that no macro picture could be seen by giving month-to-month data of revenue collection. The JS(DOR) stated that the Agenda notes had indicated revenue shortfall since the month of August, 2017. The Hon'ble Minister from Kerala stated that it was, therefore, needed to have a kind of moving average graph for States and at national level. He further emphasised that if enforcement had to take place, data must be shared with the States to have some check and intervention. He added that only after receiving the data, meaningful intervention by State administrations was possible and it was not advisable to let loose the officers on the taxpayers without proper justification.

10.3. The Secretary stated that the issue of data sharing was discussed during the officers meeting held on 9 March, 2018 and the GSTN had indicated that it would provide GSTR-2 data for every State for data analysis at State level. The Hon'ble Minister from Jammu & Kashmir suggested to set up a research and analysis wing in GST Council to do a proper data analysis and that its results should be brought before the Council to formulate policies. The Secretary informed that GSTN and CBEC had started detailed data analytics across a number of data sets available with them. The outcome of preliminary data analysis had given some interesting insights like variance between the amount of IGST and Compensation Cess paid by importers at Customs ports and input tax credit of the same claimed in GSTR-3B; and major data gaps between self-declared liability in FORMGSTR-1 and FORM GSTR-3B. The Secretary further stated that an Analytic and Research Management Wing had been created in CBEC and they would be making regular presentations to him on specific issues and statistics. The Hon'ble Minister from Kerala also emphasised the importance of data analytics and research and stated that the Economic Survey had given a lot of insights through data analytics. The Hon'ble Chairperson observed that all relevant data must be shared with the States.

10.4. Shri Tuhin Kanta Pandey, Principal Secretary (Finance), Odisha, stated that the way the analysis had been presented appeared to indicate that shortfall was equal to enforcement or lack of it, but it is not how the things are. In GST, structural changes are happening, certain origin-based taxes have gone, entry tax has gone, certain rate changes are happening across the board and these are not impacting the States uniformly. He pointed out that the Service Tax was also not coming uniformly to all States. Further, the tax on minerals had been reduced in GST regime; there was also

tax reduction on several other commodities and all these factors could also be responsible for lower revenue collection. He observed that there was need for a better analysis than equating better revenue collection with enforcement.

10.5. Shri J. Syamala Rao, Chief Commissioner (Commercial Tax) (CCCT), Andhra Pradesh, stated that the advance settlement of IGST was added to the States' revenue whereas their understanding was that they would get compensation over and above the advance settlement.

10.6. The Hon'ble Minister from Jammu & Kashmir stated that the requirement to adjust the advance settlement on a future date in equal instalments made it appear as if this IGST amount was the Centre's money. The Secretary stated that the IGST amount not settled with States was part of the Consolidated Fund of India. He stated that the IGST amount left with the Centre in the Consolidated Fund of India would be devolved to the States. The Hon'ble Minister from Jammu & Kashmir stated that the provision for devolution presumed that it was Centre's tax. The Secretary stated that the money for settlement to the States was not part of the Consolidated Fund of India, but the remaining money was part of the Consolidated Fund of India.

10.7. The Hon'ble Minister from Kerala stated that the financial year was coming to an end in March, 2018 and two more compensation instalments had to be given. He observed that States had been advanced a part of money from Rs. 35,000 crore (money lying with Centre in IGST for settlement above Rs. 1 lakh crore) and there was no rationale to withhold the compensation to States. The Secretary stated that all money transferred to States through settlement would be counted as States' revenue and the remaining shortfall shall be met through compensation fund. He observed that the amount paid by way of provisional settlement would be recovered from the final settlement. He observed that the States could not be compensated beyond the assured growth rate of 14%. The JS(DOR) stated that in the case of State of Kerala for the months of November and December, 2017, the amount which was settled provisionally was greater than the States' compensation requirement and that is why no compensation was released for those months and there were other such States as well. The Hon'ble Minister from Kerala stated that during the last meeting of the Council, discussion was held only with regard to provisional release of IGST amount and it was not clear how it got linked to compensation. The JS(DOR) stated that the money provisionally released goes in the form of SGST, hence it is calculated as State revenue for purpose of release of compensation. The Hon'ble Minister from Jammu & Kashmir stated that in such a situation, the Centre should not collect this IGST in instalments next year. The Hon'ble Deputy Chief Minister of Delhi stated that his State would lose revenue if IGST was taken as part of the Consolidated Fund of India and devolved to States because they were not covered under the 42% devolution formula. He added that the distribution of the IGST amount must be settled separately for Delhi. The Secretary stated that the amount lying as balance in IGST would need to be settled next year and this may happen from the inflow of next year or balance of current year, and if it was not done, then all States would suffer financially.

10.8. The Hon'ble Deputy Chief Minister of Delhi stated that the IGST devolution involved component of State tax and it could not be arbitrarily distributed among States under 42% devolution formula without considering the State of Delhi. He suggested not to take the IGST money to the Consolidated Fund of India and to distribute the entire Rs.1.35 lakh crore among all the States if it could not be settled provisionally for Delhi like other States. The Hon'ble Minister from Kerala

stated that the Centre had recovered the entire amount in one month by saying that this was more than the compensation and this was not fair. The money given as provisional settlement should not be taken back from the States. The Secretary stated that in the month of February, 2018, the States have got Rs. 34,100 crore both by way of SGST and by way of settlement. There was a gap in revenue collection by States of almost Rs. 10,000 crore every month and the compensation being collected was in the range of about Rs. 7,500 crore. The collection on account of VAT arrears was also slowly drying up. While keeping the future in mind, it should not happen that the Cess kitty went completely into minus. The Hon'ble Minister from Kerala stated that part of the IGST amount should be distributed in advance. He further stated that the reasoning that since for the month of November and December, 2017, compensation was less than the money devolved, and therefore, no compensation would be given, virtually implied that the advance given was being taken back. The Secretary stated that compensation was payable only if there was a shortfall in revenue and the provisional settlement should not be treated as an extra bonus beyond the assured rate of growth of 14%. If there was any shortfall after distribution of provisional settlement, it could be given from the Cess kitty. If anything was left in the Cess kitty, this would also be divided between the Centre and the States.

10.9. The Hon'ble Minister from Haryana stated the compensation was to be paid after every two months. The provisional settlement was a kind of revenue to States. The States having no shortfall would not be getting compensation. He stated that this amount should either be treated as revenue of States or compensation should be given. The Secretary stated that the Union Controller General of Accounts (CGA) had suggested to do adjustment in the next financial year against the final settlement. The Hon'ble Minister from Haryana advised that one should stick to the provisions of the Compensation Act, which provides that compensation should be paid after every two months. He stated that provisional settlement should be done after the payment of compensation, otherwise there would be a violation of law. The Secretary stated that there would be no violation of law as the question of giving compensation would arise only if there was a shortfall in revenue of States after taking into account the 14% assured rate of revenue growth.

10.10. The Hon'ble Minister from Haryana stated that in the next financial year, there would be need for additional compensation as additional 14% growth would be added and this would have to be paid after every two months. The Hon'ble Chairperson stated that it was, therefore, necessary to keep something in compensation kitty to cover up the deficit, if any, in the coming year. The Hon'ble Minister from Haryana remarked that at least the compensation due during this financial year should be released as it also affects the State finances. The Hon'ble Chairperson stated that if States got revenue, which was equal to the assured growth rate of 14%, then no compensation was payable. The Hon'ble Minister from Jammu & Kashmir stated that in such a situation, there was no need to make any recovery from the States for the amount paid as settlement. The Secretary stated that after recovery of this amount, the Centre would compensate for any shortfall. The Hon'ble Minister from Kerala stated that the idea was that after payment of compensation, some amount lying in IGST account should be given to the States. The Hon'ble Minister from Tamil Nadu stated that Article 270(1) of the Constitution excluded duties and taxes referred to in Article 269A of the Constitution. Hence instead of devolution, the balance of the IGST should be settled between the Centre and the State, as is being done so far, before 31 March, 2018.

10.11. The Hon'ble Minister from Kerala stated that the compensation paid was not the full compensation for the simple reason that the IGST was paid where goods were sold and compensation was being paid on the basis of GSTR-3B in which many items may be left out, which would be subsequently settled in favour of States or the Centre. Hence, this amount of Rs.1.35 lakh crore would need to be eventually devolved. However, it would take a long time; so, it could be distributed provisionally. Now virtually taking it back after devolving funds as provisional settlement from IGST and denying the compensation to States was not right and if this be the case, then this exercise need not have been done in the first place. The Secretary stated that even if this was deducted from regular compensation, it would be subsequently paid as compensation in the event of revenue shortfall but this could not be given as bonus over and above the 14% assured revenue growth rate. The Hon'ble Minister from Jammu & Kashmir stated that if the IGST amount was part of the Consolidated Fund of India and it reduced fiscal deficit, then it was part of central receipts. In such case, the IGST amount should be in the Public Account and not in Consolidated Fund of India. The Secretary stated that all money received by Government of India would form part of the Consolidated Fund of India unless it is specifically excluded by the Constitution. The Constitution provides that the part of IGST which is used for settlement of SGST will not form part of Government of India's kitty. By implication, the rest of the money would remain in the Consolidated Fund of India.

10.12. The Hon'ble Deputy Chief Minister of Bihar invited officers from the Council to visit the State of Bihar and analyse the reasons for shortfall in revenue. The Secretary informed that during the officers meeting held on 9 March, 2018, the Chief Economic Advisor had offered to do a diagnostic for Bihar and for a few other States. Shri Rajendra Kumar Tiwari, ACS, Uttar Pradesh, stated that the amount of shortfall in revenue shall increase and he stressed that data should be made available to the States at the earliest. The Secretary stated that he proposed to set up a group of officers to examine why the IGST settlement was not taking place. The ACS, Uttar Pradesh stated that if the amount received as advance had to be repaid, then that may not be treated as revenue of the States. Ms. Smaraki Mahapatra, CCT, West Bengal, stated that the law provided that the IGST amount lying in the Consolidated Fund of India for which the place of supply could not be determined or for which taxable person making the supply was not identifiable, was to be apportioned at the end of the year [Section 17(2) of the IGST Act, 2017]. The Secretary stated that this was yet to happen and that the provisional amount paid from the IGST fund was a temporary devolution and the amount was just parked in the Consolidated Fund of India. He stated that this matter would be further clarified when the issue under Agenda item 5 was discussed after getting clarification from the CGA and the Comptroller & Auditor General (C&AG). The Hon'ble Minister from Jammu & Kashmir stated that the concept of parking of funds in the Consolidated Fund of India was confusing. Instead, it was better to keep it in the Public Account. The Secretary stated that if the amount was kept in the Public Account, then the Union's fiscal deficit would go up by Rs.1.5 lakh crore and this would also affect devolution to the States.

11. **For Agenda item 4**, the Council took note of the revenue position for the months of January and February, 2018.

Agenda item 5: Accounting for provisional settlement of IGST and devolution of balance IGST at the end of any financial year

12. The Secretary stated that the issue covered under this Agenda item was discussed during the officers meeting held on 9 March, 2018 and it was informed that this matter was still under consideration in consultation with the CGA and the C&AG. He further informed that during the officers meeting, it was decided to defer consideration of this Agenda item. He suggested that the Council could agree to the same. The Council agreed to the same.

13. **For Agenda item 5**, the Council approved to defer consideration of this Agenda item to a future date.

Agenda item 6: Amendments to Anti-Profiteering Rules

14. The Commissioner (GST Policy Wing), CBEC, made a presentation (attached as **Annexure 3** of the Minutes) on the proposed changes in the Anti-Profiteering Rules. He informed that changes were being proposed on the suggestions of the National Anti-Profiteering Authority (NAA). He further informed that the Committee of Officers had agreed to the proposed changes during its meeting held on 9 March, 2018, with a slight modification in respect of formulation for ‘Explanation to Rule 134, which, after amendment, reads as follows: “Explanation - any other person ~~organisation or entity~~ alleging, under sub-rule (1) of Rule 128, that a registered person has not passed on the benefit to be treated as ‘interested party’ to file application before NAA”. The Council agreed to the amendments to the Anti-Profiteering Rules as proposed in the Agenda notes along with modification as indicated above.

15. **For Agenda item 6**, the Council approved the changes in the Anti-Profiteering Rules, as proposed in the Agenda notes, with the following further modification in ‘Explanation’ to Rule 134: “Explanation – any other person alleging, under sub-rule (1) of Rule 128, that a registered person has not passed on the benefit to be treated as ‘interested party’ to file application before NAA”.

Agenda item 7: Grievance Redressal Mechanism in GST Regime in light of recent judgments of Hon’ble High Courts of Allahabad and Mumbai

16. The Secretary informed that this Agenda item was discussed in detail during the officers meeting held on 9 March, 2018. He recalled that this Agenda item was introduced in light of the recent judgments of the Hon’ble High Courts of Allahabad and Mumbai in the case of M/s Continental India (P) Ltd and M/s Abicor Binzel Technoweld respectively regarding TRAN-1s, which could not be filed by taxpayers due to glitches in GSTN. He informed that during the officers meeting held on 9 March, 2018, there was a broad agreement to set up the proposed Information Technology (IT) Grievance Redressal Mechanism, as set out in Annexure A and Annexure B to the Agenda notes for Agenda item 7, with the change that instead of setting up a new Grievance Redressal Committee, the GIC shall act as the IT Grievance Redressal Committee. In GIC meetings convened to address IT issues or IT glitches, the CEO, GSTN, and the DG (Systems), CBEC, shall invariably be called as special invitees. He suggested that the Council may approve the proposal. The Council approved the same.

17. **For Agenda item 7**, the Council approved the setting up of a Grievance Redressal Mechanism proposed under Annexure A and Annexure B of this Agenda item, with the modification that GIC shall act as the IT Grievance Redressal Mechanism and that in GIC meetings convened to address IT issues or IT glitches, the CEO, GSTN, and the DG (Systems), CBEC, shall invariably be

called as special invitees. The CBEC shall issue a detailed circular in this regard with the approval of GIC.

Agenda item 8: Extension of suspension of reverse charge mechanism under section 9(4) of the CGST Act, 2017, Section 5(4) of the IGST Act, 2017 and Section 7(4) of the UTGST Act, 2017 and provisions relating to TDS (Section 51) and TCS (Section 52)

18. The Secretary informed that this Agenda item was discussed during the officers meeting held on 9 March, 2018 and generally, there was an agreement to extend by two months the provisions of Section 51 (TDS), Section 52 (TCS) and Reverse Charge Mechanism under Section 9(4) of the CGST Act, 2017, Section 5(4) of the IGST Act, 2017 and Section 7(4) of the UTGST Act, 2017. However, one point of decision before the Council was regarding extension of suspension of reverse charge mechanism for composition taxpayers. He stated that the general view during the officers meeting was to bring reverse charge mechanism for composition dealers from 1 April, 2018 and to extend it by two months for other situations.

18.1. The Hon'ble Minister from Kerala stated that the reverse charge mechanism was meant to be an anti-evasion tool to prevent leakages and it should not be postponed indefinitely. He added that the reverse charge mechanism also existed under VAT and there must be a definite time frame for introducing reverse charge mechanism in GST. He suggested that reverse charge mechanism for composition taxpayers should not be postponed and for other categories of taxpayers, it should be introduced at the earliest possible and two months' extension seemed fair.

18.2. The Hon'ble Minister from Rajasthan stated that for the composition taxpayers, there was a decision by the Council to increase the threshold of annual turnover to Rs.1.5 crore but it had not been implemented as yet. The Secretary stated that this change would be done along with other changes to be carried out in the GST law, including the changes relating to return filing. He pointed out that the experience indicated that majority of composition taxpayers had declared an average turnover of Rs.5 lakh per quarter, which amounted to an annual turnover of Rs.20 lakh, and in this light, there appeared to be no point at this stage to increase the annual turnover threshold for composition taxpayers to Rs.1.5 crore.

18.3. The Hon'ble Minister from Jammu & Kashmir stated that the reverse charge mechanism should be introduced from 1 April, 2018 except if it had implications on the IT system. It was important to take a view whether it would further complicate the IT system or cause glitches. The Hon'ble Deputy Chief Minister of Bihar stated that implementation of reverse charge mechanism could be extended by two months for composition taxpayers and at the same time, one should also explore methods other than reverse charge mechanism to curb the ways in which these small taxpayers were concealing their turnovers. He further stated that the provision for TDS should be implemented immediately. The Secretary stated that for operationalising the provisions of TDS, electronic linkage was required between the Government accounting system and the GSTN accounting system to enable transfer of funds deducted at source by the deductor to the cash ledger of the taxpayer (deductee). About two months' time was needed to achieve this linkage. He further stated that traders were presently showing very low turnover and he was not very confident that the situation would improve with the introduction of reverse charge mechanism because the taxpayer himself was required to declare purchases under reverse charge mechanism. The Hon'ble Deputy

Chief Minister of Bihar stated that reverse charge mechanism for composition taxpayers should also be extended by two months.

18.4. The Secretary suggested that TDS, TCS and reverse charge mechanism for composition taxpayers could be introduced from 1 June, 2018. Reverse charge mechanism for other categories of taxpayers could be introduced from a later date. The Hon'ble Minister from Jammu & Kashmir suggested that instead of 1 June, 2018, it could be introduced from the end of first quarter i.e. 1 July, 2018. The Secretary stated that this was a good suggestion and that the Council could agree to introduce TDS, TCS and reverse charge mechanism on composition taxpayers from 1 July, 2018. The Hon'ble Chairperson stated that extension of time could be linked with the timeline for implementation of the e-Way bill system as this was also part of the anti-evasion measure. The Secretary stated that since e-Way Bill system was being implemented from 1st of April, 2018, a staggered roll out of reverse charge mechanism could be worked out for composition taxpayers 1st of July, 2018. He further stated that as far as IT system was concerned, even under the present system, there was full mechanism available for inputting of invoices related to reverse charge, so no difficulty was foreseen with regard to IT system. He added that the reverse charge mechanism was not proposed to be started for non-composition taxpayers at this juncture. He also stated that under VAT, reverse charge mechanism was meant only for composition taxpayers in most of the State Laws. The Hon'ble Minister from Kerala stated that in all States, reverse charge mechanism was applied in the form of purchase tax. Shri Ritvik Pandey, Finance Secretary, Karnataka, stated that there was no purchase tax in the State of Karnataka. Shri Sanjeev Kaushal, Additional Chief Secretary, Haryana, stated that in Punjab and Haryana, the entire purchase tax was under reverse charge including that on purchase of cotton.

18.5. The Secretary stated that there was some criticism that reverse charge mechanism was against informal sector as due to this provision, people would refrain from buying from unregistered sellers. In view of this, he wondered whether the reverse charge mechanism should be applied on all items. The Hon'ble Minister from Uttar Pradesh stated that if small dealers in composition scheme could pay under reverse charge mechanism, then why the bigger dealers could not do so as well and they should also be included. The CCT, West Bengal, suggested that a staggered approach should be adopted in applying the reverse charge mechanism.

18.6. The Hon'ble Minister from Chhattisgarh stated that if purchases were made by non-composition taxpayers from unregistered sellers, tax would be paid by the buyer on his final output. He further stated that if reverse charge mechanism was introduced, then the threshold exemption and composition scheme would have no meaning. He recalled that no input tax credit was available to composition taxpayers. The Hon'ble Deputy Chief Minister of Bihar suggested that during the next meeting of the Council, there should be a detailed agenda item on reverse charge mechanism and it should be presently extended by three months. The Hon'ble Chairperson observed that evasion level was high among the taxpayers availing composition scheme and a solution needed to be found in this regard. He observed that while the Hon'ble Minister from Rajasthan wanted the annual turnover threshold for composition taxpayers to be increased to Rs.1.5 crore, as per the present data, the average annual turnover of composition taxpayers was only in the range of Rs.17 lakh to Rs.18 lakh. Therefore, increasing the threshold of annual turnover to Rs.1.5 crore for composition taxpayers might be meaningless.

18.7. The Hon'ble Minister from Chhattisgarh reiterated that there would be no logic left for composition scheme and for exemption threshold if the tax already gets paid under reverse charge mechanism and embedded taxes get added to the cost of composition taxpayer. He added that in all States, neither reverse charge mechanism nor the composition scheme was applicable to taxpayers with annual turnover above Rs.40 lakh and that the idea of having an annual turnover threshold of Rs.1.5 crore for composition taxpayers came on account of Central Excise exemption available to small scale industries up to this turnover limit. The composition scheme and exemptions given under Central Excise were two different issues but now if reverse charge mechanism was brought on all, then indirectly, one would be bringing to an end the composition scheme and the exemption threshold limit. Therefore, some other mechanism needed to be worked out.

18.8. The Principal Secretary (Finance), Odisha, stated that if a composition taxpayer purchased from an unregistered seller, he would pay full tax under reverse charge mechanism as would have been the case as if he was buying from a registered seller. However, on his own value addition, he would pay only 1% of the value of his turnover. The Secretary observed that under VAT, composition scheme was only for traders whereas in the GST regime, it was proposed to be brought in for manufacturers as well as traders and also some service providers. The only additional benefit available to composition taxpayers under the GST regime was procedural simplification. He observed that offering composition scheme to medium and small-scale taxpayers up to annual turnover of Rs.1.5 crore on the lines of the exemption under Central Excise might not be very effective and some other way would need to be found out to give tax benefit to small scale enterprises. The Hon'ble Deputy Chief Minister of Bihar observed that if tax evasion by composition taxpayers was plugged, the likely additional revenue to accrue was about Rs. 2,000 crore. He observed that compared to the total revenue collection, this was a small amount and it might not be prudent to invest so much of time and energy on small taxpayers. He suggested to defer implementation of reverse charge mechanism by two months. The Hon'ble Minister from Kerala stated that the aim was not to pursue small dealers but to only make them to pay tax under reverse charge mechanism.

18.9. Shri T.V. Somanathan, CCT, Tamil Nadu, suggested that reverse charge mechanism should be started for all types of taxpayers from 1 July, 2018, and if not for all, then at least for composition taxpayers from 1 July 2018. The Secretary suggested that this issue could be deferred by three months, and in the meanwhile, a committee could be constituted to look into various aspects of reverse charge mechanism for purchase of goods by composition dealers and others. The Hon'ble Minister from Goa stated that the reverse charge mechanism was a means to arrest tax evasion and a very clear and strong signal should go out and not implementing it immediately might lead to evasion of tax. The Hon'ble Minister from Punjab suggested to look into the macro data as, according to his assessment, total sourcing by composition taxpayers from registered taxpayers would be less than 1%. The Secretary suggested to defer the introduction of reverse charge mechanism by three months. The Hon'ble Chairperson stated that during this period, a Group of Ministers (GoM) could be constituted to examine this issue. The Hon'ble Minister from Jammu & Kashmir stated that there was a general sense that we were floundering with GST and making frequent changes in laws. He observed that there was an opportunity to change the optics by announcing that on 1 July, 2018, reverse charge mechanism would be introduced for composition taxpayers and introduction of reverse charge mechanism for other categories of taxpayers could be examined by a committee to be constituted for the purpose. The Hon'ble Chairperson stated that a Group of Ministers (GoM) from five States could look into this issue and then a decision could be taken before 1 July, 2018. The

Hon'ble Ministers from Kerala, Chhattisgarh, Punjab, Uttar Pradesh and Bihar volunteered to be the members of the GoM. The Secretary stated that in view of this discussion, the Council may approve to defer the introduction of reverse charge mechanism by three months and a GoM consisting of the five Hon'ble Ministers would examine the issue in detail.

18.10. Shri Prakash Kumar, Chief Executive Officer (CEO), GSTN, stated that for TCS, it was envisaged that data would go from GSTR-1 to the taxpayer's return and since GSTR-2 was on hold, the date for TCS implementation should be decided only after the new return module was finalised. The Secretary stated that TDS could be implemented from 1st July, 2018 and for TCS, the issue could be reviewed further.

18.11. The Hon'ble Minister from Tamil Nadu in his written speech suggested that the Council may consider granting a one-time amnesty to the taxpayers whose registration had been cancelled for failure to migrate to GST within the given time frame. This would facilitate them to file GST returns and pay tax for the period during which their provisional registration was in force. He also suggested to enable the taxpayers to file GST TRAN-1 as a onetime measure.

19. **For Agenda item 8**, the Council approved the following: -

- (i) to extend the date for implementation of tax deduction at source (TDS), tax collection at source (TCS) and reverse charge mechanism under Section 9(4) of CGST/ 5(4) of SGST Act/ 7(4) of UTGST Act to 1 July, 2018;
- (ii) to constitute a Group of Ministers consisting of the Hon'ble Deputy Chief Minister of Bihar and the Hon'ble Ministers from Kerala, Chhattisgarh, Punjab and Uttar Pradesh to study the issues relating to reverse charge mechanism. A group of officers shall also be associated with the GoM to assist the Hon'ble Ministers and also present their view points. The GoM shall present its recommendation to the Council well before 1 July, 2018.

Agenda item 9: Minutes of 6th and 7th Meeting of Group of Ministers (GoM) on IT Challenges in GST Implementation for information of the Council and discussion on GSTN issues

20. This Agenda item involved discussion on the minutes of 6th and 7th meetings of the Group of Ministers on IT Challenges in GST Implementation held on 7 January, 2018 and 24 February, 2018 respectively. The minutes of these meetings were placed before the Council under Agenda item 9. The Council took note of the minutes of the two meetings, but due to paucity of time, no discussion took place on this Agenda item.

21. **For Agenda item 9**, the Council took note of the minutes of 6th and 7th meetings of the Group of Ministers on IT Challenges in GST Implementation held on 7 January, 2018 and 24 February, 2018 respectively.

Agenda item 10: Decision of date of reintroduction of e-Way Bill requirement

22. The Secretary informed that this Agenda item was discussed during the officers meeting held on 9 March, 2018 and during this meeting, the National Informatics Centre (NIC) had informed that final round of load testing was being done and it was expected to migrate the e-Way bill generation

to Central server by 15 or 16 March, 2018. NIC was ready to start e-Way bill system for inter-State movement of goods from 1 April, 2018. For intra-State movement, they sought some more time and suggested its staggered implementation. He stated that for introduction of intra-State e-Way bill system, the Agenda note had suggested its implementation in a staggered manner where the first lot of States could commence intra-State e-Way bill from 15 April, 2018. The second lot could implement from 20 April, 2018, the third lot from 25 April, 2018 and the remaining States from 30 April 2018. He suggested that the GIC could be delegated the responsibility to tweak dates for introduction of intra-State e-Way bill system, if so required.

22.1. The Secretary further informed that during the officers meeting held on 9 March, 2018, it was agreed that the States falling in the first lot would be Andhra Pradesh, Kerala, Uttar Pradesh, Telangana and Gujarat. He stated that the CCT, Karnataka, had informed that his State had implemented the e-Way bill system from September, 2017 and would like to continue with the same. He added that during the officers meeting held on 9 March, 2018, the States of Telangana and Uttar Pradesh had also expressed that they would like to continue their system of e-Way bill under their State law until the national e-Way bill Rules were brought into force. The Secretary stated that in the second lot, the States that would implement the e-Way bill system are Bihar, Haryana, Jharkhand, Uttarakhand and Madhya Pradesh. He added that during the officers meeting held on 9 March, 2018, the CCT, Tamil Nadu, had informed that instead of being part of the second lot as mentioned in the agenda item, they would like to be part of the fourth lot. The Secretary further stated that in the third lot, the States of Arunachal Pradesh, Madhya Pradesh, Meghalaya, Sikkim and the Union Territory of Puducherry would introduce intra-State e-Way bill. The remaining States would introduce intra-State e-Way bill in the fourth lot. The Commissioner (GST Policy Wing), CBEC, stated that the States would need to issue a notification, in consultation with the Chief Commissioner of Central Tax under Rule 138(14)(d) of the SGST Rules of their State to exempt the application of e-Way bill for intra-State movement of goods for the time period during which the same was not implemented by them. The said notification would be withdrawn from the date from which e-Way bill for intra-State movement of goods is to be started. The Council agreed to the above proposals.

22.2. The Hon'ble Minister from Kerala raised the issue of making e-Way bill system applicable to movement of gold and enquired as to what decision was taken on this issue. The Commissioner (GST Policy Wing), CBEC, stated that the Law Committee had deliberated on this issue and the view taken was that due to security related concerns, movement of gold should be exempted from the provisions of e-Way bill Rules. The Hon'ble Minister from Kerala stated that the traders of gold were bringing gold to the State and carrying on trading activities but this could not be intercepted due to absence of e-Way bill system. The Secretary stated that the e-Way bill system might not be effective for transport of gold as gold could also be transported in a bag. The Hon'ble Minister from Kerala stated that such mode would be an issue of tax evasion but otherwise gold requires a system of precious cargo movement. The CCT, West Bengal, stated that in her State, gold was kept out of the e-Way bill Rules due to security considerations. Ms. Sujata Chaturvedi, Principal Secretary (Finance & Commercial Tax), Bihar stated that in Bihar, movement of gold was also out of the purview of e-Way bill Rules due to security reasons. The Secretary stated that all these States did not have a system of precious cargo movement and requested to drop the suggestion to bring movement of gold under the e-Way bill system.

22.3. The Hon'ble Chairperson stated that India's demand for gold was about 1,200 tonnes every year and its import was charged to Customs duty at the rate of 10%. If Customs duty was increased, smuggling would start in a big way. He stated that it was better to allow import of gold through formal method instead of through informal method. The Hon'ble Minister from Kerala stated that in his State, the annual revenue from gold had been reduced from Rs.650 crore to Rs.200 crore. He stated that his State would prepare a note on this issue after full data on supplies under GST was made available.

22.4. The Hon'ble Minister from Tamil Nadu in his written speech expressed the hope that GSTN would put in place a robust IT infrastructure before the actual implementation of the e-Way Bill system.

23. **For Agenda item 10**, the Council approved the following:

- (i) to start e-Way bill system for inter-State movement of goods on all-India basis from 1 April, 2018;
- (ii) to introduce intra-State e-Way bill system in a staggered manner and the States shall implement it as per the following time schedule:
 - (a) first lot of States consisting of Andhra Pradesh, Kerala, Uttar Pradesh, Telangana and Gujarat from 15 April, 2018;
 - (b) second lot of States consisting of Bihar, Haryana, Jharkhand, Uttarakhand and Himachal Pradesh from 20 April, 2018;
 - (c) third lot of States consisting of Arunachal Pradesh, Madhya Pradesh, Meghalaya, Sikkim and the Union Territory of Puducherry from 25 April, 2018;
 - (d) fourth lot consisting of remaining States from 30 April, 2018;
 - (e) the States of Karnataka (already running on NIC system), Telangana and Uttar Pradesh to continue with their intra-State e-Way Bill System under the State law till they introduce the national intra-State e-Way bill system;
- (iii) GIC shall be delegated the responsibility to tweak the dates for introduction of intra-State e-Way bill system, if so required; and
- (iv) States shall issue a notification, in consultation with the Chief Commissioner of Central Tax, under Rule 138(14)(d) of the respective SGST Rules to exempt the application of e-Way bill for intra-State movement of goods for the time period during which the same was not implemented by them. The said notification would be withdrawn from the date from which e-Way bill for intra-State movement of goods is to be started.

Agenda item 11: Status of e-Wallet scheme for exports and decision on continuance of payment of IGST through advance authorization, EPCG, etc. / exemption to EOU and SEZ units

24. The Secretary informed that this Agenda item was discussed during the officers meeting held on 9 March, 2018. During the officers meeting, it was noted that some preparatory work had been done, but more was needed to be done to address a large number of identified technical, legal and administrative issues. In this view it was agreed to defer implementation of e-Wallet scheme by six

months i.e. up to 1 October, 2018 and to extend the present dispensation in terms of exemptions etc. for a further period of six months, which is currently available till 31 March, 2018. He suggested that the Council could also agree to this proposal. The Council agreed to the proposal.

24.1. The Secretary informed that during the officers meeting held on 9 March, 2018, progress in the grant of refunds to exports of both IGST and input tax credit was reviewed and it was noted that the pace of grant of IGST refund had picked up. It was also decided that GSTN would expeditiously forward the balance refund claims to the Customs/Central GST/ State GST authorities, as the case may be, for their immediate sanction and disbursal. The Council appreciated these developments.

25. **For Agenda item 11**, the Council approved the following:

- (i) To defer the implementation of e-Wallet scheme by six months i.e. up to 1 October, 2018;
- (ii) To extend the present dispensation in terms of exemptions etc., which is currently available till 31 March, 2018 for a further period of six months i.e. up to 1 October, 2018.

Agenda item 12: New System of Return Filing

26. The Secretary invited the Chairman, GSTN, to make opening remarks to be followed by a presentation by Shri Manish Sinha, Commissioner (Central Excise), CBEC. The Chairman, GSTN in his opening remarks, stated that the new return design had been finalised after detailed and extensive meetings, several rounds of discussion including discussion with the team of Shri Nandan Nilekani, Co-founder and Non-Executive Chairman of the Board of Directors of Infosys Ltd. He stated that the design was then discussed with the GoM on IT related Challenges and subsequently during the officers meeting held on 9 March, 2018. He pointed out that the major differences in the model proposed by Shri Nandan Nilekani and that by the Committee on Return related to availment of provisional input tax credit by recipient; linkage between availment of input tax credit by recipient and tax payment by supplier and auto reversal of input tax credit. He stated that there was a detailed discussion on this issue during the officers meeting held on 9 March, 2018 and from the discussions, it was clear that both the models had something in common. He suggested to introduce the common features of the two models and to see later how the differences in the two models could be addressed. He stated that the broad agreement related to the following issues: (i) to have only one monthly return, which would substantially reduce the number of returns filed in a year; (ii) for sellers, to have an option to continuously upload the invoices, which could be seen by the corresponding buyers; (iii) the buyers would be shown the tax paid status of the invoices so that the buyer knows that the tax has been paid by his supplier; (iv) buyer to be shown the difference between the input tax credit claimed and the likely input tax credit eligible on the basis of the invoices uploaded by his seller and the tax paid thereon but there would be no auto reversal of input tax credit till one gains experience of the new system; (v) for the difference between the input tax credit claimed and the likely eligible input tax credit, the taxpayer would be advised through the GSTN system to file a reconciliation statement and explain the difference and pay taxes; (v) if no reconciliation statement was filed beyond a certain prescribed time period, and the difference was more than the prescribed threshold, such cases could be taken up for audit or investigation.

26.1. After these preliminary comments, the Commissioner (Central Excise), CBEC, made a presentation, which is attached as **Annexure 5** of the Minutes. He stated that the return was proposed

to be filed monthly by all taxpayers, except for those under the composition scheme. The monthly return was to consist of a summary return like the present GSTR-3B and have as its annexure, invoices for outward supplies and such inward supplies which attracted tax on reverse charge basis. No system-based matching was proposed and instead matching would be done offline by the taxpayers. He stated that online matching by the system could lead to mismatches to the tune of 30% to 40% (based on the information received from Karnataka) which would be humanly impossible to reconcile. On this account, matching was proposed to be done offline.

26.2. The Hon'ble Minister from Kerala stated that the supply details filed in GSTR-1 could be auto-populated in GSTR-2 and samples could be taken to see whether the two matched. The CEO, GSTN, stated that since GSTR-2A was being auto-populated from GSTR-1, the same would match. He explained that the Commissioner (Central Excise), CBEC was referring to a system of return filing where buyer uploaded details of both sales and purchases and it was matched by the system. In such cases, the percentage of mismatch was 30% to 40% based on the experience of four States (Karnataka, Andhra Pradesh, Gujarat and Maharashtra) who had adopted this system of return filing. The Chairman, GSTN, stated that there was agreement with respect to the suggestion by Shri Nandan Nilekani that there should be only one-way traffic for invoice upload i.e. by the supplier. There was convergence that only the seller would upload the invoices. The recipient would be able to continuously view the invoices uploaded by the supplier and its tax payment status and an invoice locking facility could be made available as an IT facilitation measure. An offline tool would be provided to the buyer to assist in return filing and down-loading supplier's invoices.

26.3. Continuing the presentation, the Commissioner (Central Excise), CBEC stated that return filing was proposed to be staggered wherein taxpayers with annual turnover above Rs.1.5 crore shall file their return by 10th of the next month and taxpayers with annual turnover below Rs.1.5 crore shall file their return by 20th of the next month, except some categories like composition taxpayers. He added that for nil return filers, there would be a separate button, and with one click of the button, the return would be filed automatically. The seller would have the facility to continuously add any missing invoices of the past period and pay the tax thereon. The input tax credit shall be provisionally taken on the basis of receipt of goods covered under the invoices. The credit would be finalised upon the seller paying the tax due. Facility of partial payment of tax on self-assessment basis shall be allowed and the buyer would be shown the tax payment status. He stated that for partial payment of tax, credit would be allowed to the extent of tax payment and the seller would need to identify as to on which invoices tax was not paid. While return would be filed in one stage, the credit reconciliation would take place in three steps: (a) Input tax credit would be availed on self-declaration basis upon filing of return; (b) An IT platform would provide facility to continuously add missing invoices, credit notes and debit notes for the past period and pay tax liability thereon; (c) On expiry of the rectification period, excess credit taken shall be self-assessed and reversed by the buyer. GST Council could extend the rectification period. He added that a liberal timeframe was being suggested for rectification as it was a new idea and the taxpayer should get used to it. At a later stage, time period could be considered to be reduced. Credit so reversed can be taken again by the buyer if the seller pays the tax due later. Cases of large difference between input tax credit taken by the buyer and the tax paid by the seller could be taken up for audit/scrutiny. A system of auto reversal of input tax credit would be introduced only if it was programmable in the IT system and the mismatches between the sale and purchase details were within acceptable limits.

26.4. The Commissioner (Central Excise), CBEC, further stated that it was important to maintain a linkage between tax payment and input tax credit availment and, therefore, the concept of provisional credit was very important. He stated that as per the present data, tax payment by a taxpayer was in the ratio of 3:1 for input tax credit and cash. This meant that a taxpayer if required to pay tax of four rupees, was paying the same by utilising three rupees as input tax credit and one rupee in cash. He stated that if 20% of invoices were not uploaded, this would lead to an extra requirement of Rs.50,000 crore in cash for tax payment, which would be a very big burden on the economy. He informed that during the meeting of the officers held on 9 March, 2018, a discussion took place regarding a provision to block the facility of invoice uploading for those sellers who had defaulted in payment of tax. He stated that this approach could be more problematic and could lead to penalising multiple buyers of the concerned seller. He added that it was proposed to continue with GSTR-3B and GSTR-1 returns for a period of three months after 1 April, 2018.

26.5. Summarising the presentation, the Secretary stated that the model proposed during the presentation was a modified version of that mentioned in the Agenda note based on the discussion during the officers meeting held on 9 March 2018. It was proposed that only one GSTR return would be filed in a month and it would be a combination of the present GSTR-3B (Summary return) and GSTR-1 (Details of sales invoices) returns. The sales invoices would form an annexure to this return. Invoices could be uploaded on daily basis and these would automatically form part of the annexure of the return, thus helping to unclog the system. Further, he stated that the buyer and seller would know the amount of gap between the input tax credit claimed by the buyer and the invoices uploaded by the seller. It was also expected that the buyer would ensure that the seller uploaded the missing invoices. A period of three months was proposed to be given to the buyer to explain the mismatch in the credit taken *vis-à-vis* the invoices uploaded by the seller. The difference in the amount of input tax credit claimed would be explained by the buyer through a rectification statement and where the differences remained, he would be expected to pay the difference between the amount of tax paid on uploaded invoices and the input tax credit taken. In the initial phase, the GST Council could allow longer than three months to file the rectification statement. He added that auto reversal of excess input tax credit had many challenges and it would need to be explored whether suitable IT system could be created for auto reversal. However, data regarding the gap between the tax paid by the seller and the input tax credit availed by the buyer could be used for conducting annual return assessment and audit. He stated that such a provision would make the buyer aware that he needed to make the seller to pay the tax. He stated that an element of self-policing was important as the tax administration had limited manpower to audit and assess each and every case of mismatch between the tax paid and the input tax credit taken.

26.6. The Hon'ble Deputy Chief Minister of Delhi stated that two issues may arise from this model. The first was that if input tax credit was being reversed at the buyer's end due to wrong doing at the seller's end as the tax was to be paid at the seller's end, it would lead to double taxation at the buyer's end. Secondly, the requirement of filing monthly return would be a problem for small traders. The Secretary stated that currently small traders were filing GSTR-1 return quarterly and GSTR-3B return on monthly basis and 30% of GSTR-3B returns were nil returns. The nil return filers could file their returns by a simple click of a button. He stated that if small taxpayers were given three months' time to file returns, then monthly matching of input tax credit would not be possible. Further, the data of settlement of tax for States also came from returns and if returns for small taxpayers was filed on

quarterly basis, settlement of funds to the States would also suffer. It was, therefore, desirable that every taxpayer should file one monthly return.

26.7. The Hon'ble Minister from Jammu & Kashmir stated that given the track record of implementation of the IT system, he was reluctant to go along with the proposal. He added that Shri Nandan Nilekani had a track record, he had presented his view through a model and that model was further changed by people whom he did not know and trust. Either Shri Nandan Nilekani should have been given a chance to defend himself or an independent group should have been formed to assess it and put it up before the Council. Now invoice matching was proposed to be done by a reconciliation statement. He suggested that an independent group of persons with domain knowledge should look into the proposal and be assured that this was a workable model. The Hon'ble Minister from Punjab agreed to this suggestion. He observed that the proposed system would punish honest taxpayers and that it appeared that the law was being made for errant taxpayers. He further stated that such a provision was not to be found anywhere in the world. The Advisor (Finance), Punjab, stated that the Commissioner (Central Excise), CBEC, had given a figure of 20% of credits not being made available. He observed that if the tax payment is Rs.90, 000 crore and the credits are about Rs.2,70,000 crore, then one also needs to know as to how the present system is working. The GST law has introduced the concept of distinct entity where IGST has to be paid by the same company having branches in two or more States while transferring goods from one State to another. He stated that it needed to be ascertained as to how much credit was being used within the same entity. He stated that in his estimation, non-availability of credit to the tune of 20% was a highly alarming figure. He added that there was a likelihood of more revenue leakage in this model as compared to the model suggested by Shri Nandan Nilekani. He further stated that the buyer was being made responsible for reversal of input tax credit for non-payment of tax by the seller but there could be a situation where the supplier might pay tax after a long drawn legal battle and by then, the buyer might not exist. In such cases, there would be double taxation. He added that due to the proposed provision, the buyer might stop dealing with new start-ups. He observed that the proposed system of return was not conducive to trade and advised that buyers should not be made responsible for reversal of input tax credit.

26.8. The Hon'ble Minister from Karnataka stated that as part of the GoM on IT Related Issues, he had seen both the models. The tax authorities were of the opinion that the interest of revenue might not be protected in the model proposed by Shri Nandan Nilekani. He proposed that some safety mechanism could be adopted in the model proposed by Shri Nandan Nilekani. For instance, if a seller kept on uploading invoices and not paying taxes, he should be blocked from further uploading invoices. He stated that some such other interventions could also be considered. He further observed that the scheme of provisional credit could also be abused and undoing such abuse could be a time-consuming process. He stated that some caveat regarding uploading of invoices could be introduced for buyers.

26.9. The Secretary raised a question whether payment of tax should be delinked from availment of input tax credit, as suggested in the model of Shri Nandan Nilekani. Another issue to be considered was whether the buyer should be completely absolved of the responsibility from any wrong availment of input tax credit due to non-payment of tax by the seller. He stated that if the tax system was so designed that the tax administration would hold only the sellers accountable, it could lead to reckless trading. Buyers would have no stake in the entire scheme and they would only procure invoices and

take input tax credit on this basis. He observed that trade would be taking place across the State borders and IGST would be flowing accordingly. Without a self-policing mechanism, it would be very difficult for tax administration to monitor all cases. He stated that only the Government should not take responsibility to allow input tax credit where the buyer and the seller were indulging in collusive behaviour. The Hon'ble Minister from Karnataka stated that in the currently proposed model too, availment of input tax credit would go on without any hindrance for three months whereas with some modifications in Nandan Nilekani's model, one could stop the seller from uploading invoices if tax was not paid for one month and thereafter, there would be no chance of ineligible input tax credit being availed.

26.10. The Advisor (Finance), Punjab, stated that frauds could be of two types. The first was where input tax credit was taken on the basis of fictitious invoices through collusive behaviour. The second was where fraud was not on account of collusive behaviour of the buyer. He stated that, as brought out in the Economic Survey of 2018, in 95% of trade, at one end of the chain was a large and medium supplier. He observed that it would not be desirable to make law keeping in view 1% or 2% of errant taxpayers. He added that even a buyer could be errant and could avail input tax credit and then vanish. Therefore, risk to revenue was there in both the models. He suggested to start with the model proposed by Shri Nandan Nilekani. The Commissioner (Central Excise), CBEC, stated that the model proposed by Shri Nandan Nilekani did not seek to block invoices uploaded by the seller.

26.11. The Hon'ble Chairperson enquired from the Commissioner (Central Excise), CBEC, as to why revenue administration was apprehensive of the model proposed by Shri Nandan Nilekani. The Commissioner (Central Excise), CBEC, responded that there were several reasons for apprehension. The first and the main reason of apprehension was that there would be no control regarding default in payment of tax on which input tax credit was taken. Secondly, the proposed concept of blockage of uploading of invoices by supplier was an uncharted legal territory. The Central Excise law tried to introduce this provision and the courts quashed it. Thirdly, blocking of invoice upload by a supplier could hurt multiple buyers. If a supplier made supplies to a buyer A in the month of April and defaulted in paying tax for his May return, and made supplies to a buyer B in the month of May, the input tax credit to B would also be blocked due to default in tax payment in respect of supplies made to buyer A. The fourth issue related to limitation in the number of tax officers who could take up audit and scrutiny. He stated that in one year, the Central tax administration was able to do audit of about 40,000 units, return scrutiny of about 30,000 units and anti-evasion cases of about 10,000 units. He stated that the maximum intervention possible by the Central administration would be about 1,00,000 cases. States could possibly make about 2,00,000 interventions in a year as they have similar number of assessing officers but double the number of support staff. This implied that the Central and the State administrations put together could intervene in only about 3,00,000 cases in a year against a taxpayer base of close to one crore. It was in this context that a mechanism of self-policing was very important. The fifth issue was in respect of IGST settlement. If there was a default, then the Centre would lose the entire amount already transferred to the State. He suggested that instead of the Centre losing the entire amount, 50% of such losses should also be borne by the States. The sixth issue was that the system of locking of invoices, as proposed in the model of Shri Nandan Nilekani, could involve compliance load.

26.12. The Chairman, GSTN, pointed out that the linkage between tax payment and availment of input tax credit was not new. This feature existed in many VAT laws. This provision was challenged

in the Hon'ble High Court of Mumbai in the case of M/s Mahalaxmi Cotton Ginning where the Hon'ble Court gave a detailed justification for upholding this provision and the Hon'ble Supreme Court upheld this judgment. Similarly, the Hon'ble High Court of Gujarat in the case of M/s Madhav Steel had upheld the linkage between payment of tax and availment of input tax credit and the Hon'ble Supreme had upheld this judgment. Only recently, the Hon'ble High Court of Delhi in the case of M/s Quest Merchandising had passed an order taking a different view on this issue. He pointed out that Section 16(2)(c) was part of the CGST and SGST Acts, which linked payment of tax with availment of input tax credit. In view of this, there was sufficient legal justification to retain the linkage between payment of tax and availment of input tax credit. This mechanism along with that of self-policing would be useful as the buyer would be careful in doing business with the seller and without such self-policing, the consequences could be quite difficult. He further stated that the system of auto reversal of wrongly taken input tax credit could be postponed and mismatch of input tax credit could be addressed through audit. The Hon'ble Chairperson observed that the model of Shri Nandan Nilekani was easy and simple but possibly more suited to a society with a good track record of compliance and a fully trust based tax model in the Indian context could lead to several adverse consequences.

26.13. The Hon'ble Minister from Jammu & Kashmir stated that the proposed model was difficult to understand. He recalled that the earlier model had got stuck because of IT related issues. The Hon'ble Chairperson stated that Shri Nandan Nilekani also had a meeting with the members of the GoM as well as the officers of the Centre and the States. He observed that broadly, the political executive found the model of Shri Nandan Nilekani to be simpler but the tax bureaucracy considered it to be a risk to revenue. The Hon'ble Minister from Punjab observed that the tenor of discussion reminded him of a quotation from a dictator in Pakistan: "Democracy only works in cold countries and not in hot countries!". The Hon'ble Minister from Karnataka stated that this was a very important Agenda item and before taking a final decision, both the models could be looked into more deeply and further simplified. He stated that the final outcome should satisfy the concerns of trade as well as the tax administration. The Hon'ble Deputy Chief Minister of Bihar observed that the GoM on IT Challenges could not arrive at any conclusion on the issue and the Council could take a decision.

26.14. The Secretary stated that once the model is finalised, GSTN would also need to be given a timeframe of three months to develop the requisite software. He suggested that the return model could be finalised during the next meeting of the Council and in the meantime, the GoM on IT Challenges in GST Implementation could further work on this issue. He suggested that officers from other States could also join in the discussions of the GoM. The Hon'ble Chairperson observed that GoM could invite more officers and persons having expert knowledge on the subject. He also suggested to take four to five persons with domain knowledge on this issue. The Secretary suggested that for the Meeting of GoM on this issue, the officers from all the States could be invited along with Shri Nandan Nilekani to suggest and reflect their concerns on the issue. The Hon'ble Minister from Jammu & Kashmir suggested that two retired Chairmen of CBEC could also be invited for the deliberations. The Hon'ble Deputy Chief Minister of Bihar suggested to invite a few tax law experts as well. The Council noted that the GoM would further discuss this issue to find a balanced solution. During its discussion, it would invite all interested State Government and Central Government officers, some domain experts and other persons as deemed relevant by the GOM as well as Shri Nandan Nilekani for further discussion and present its proposal in the next meeting of the Council.

26.14. The Hon'ble Minister from Tamil Nadu mentioned in his written speech that his State was in favour of allowing provisional credit to taxpayers for a shorter period. At the same time, the design of the GST return should ensure that all the taxes i.e., SGST, CGST and IGST due to the States and the Centre are captured based on the consumption principle.

27. **For Agenda item 12**, the Council approved that the system of GST return filing would be further discussed in the GoM on IT Challenges in GST Implementation to find a balanced solution and its proposal shall be presented in the next meeting of the Council. During its discussions on this issue, the GoM shall invite all interested State Government and Central Government officers, some domain experts, Shri Nandan Nilekani and other persons as deemed relevant by the GoM.

Agenda item 13: Applicability of Goods and Services Tax on Extra Neutral Alcohol (ENA)

28. The Secretary suggested that due to paucity of time, this Agenda item could be deferred for consideration in the next meeting. The Council agreed to the suggestion.

29. **For Agenda item 13**, the Council approved to defer consideration of this item to its next meeting.

Agenda item 14: Any other agenda item with the permission of the Chairperson

Agenda item 14(i): Consideration of representation dated 22.09.2017 by M/s Honda Siel Power Products as per the directions of the Hon'ble High Court of Delhi

30. The Secretary stated that the proposal in this Agenda item had arisen on account of the Writ Petition filed before the Hon'ble High Court of Delhi where the Hon'ble Court had directed that the GST Council could appropriately consider the Petitioner's pending representation on the differential GST rates between its products, i.e. petrol/kerosene engines and fixed speed diesel engines below 15 HP. The Petitioner, M/s Honda Siel Power Products Ltd., in its representation dated 22 September, 2017 addressed to the Secretary, Department of Revenue, Union Ministry of Finance, had stated that differential rates of tax between petrol/kerosene engines and fixed speed diesel engines not exceeding 15 HP at the rate of 28% and 12% respectively was arbitrary and founded on erroneous logic. The Secretary informed that views of the members of the Fitment Committee were sought on this issue and they did not favour equalisation of the rate of tax on these two products. The recommendation of the Fitment Committee was that there was no case for reduction in the rate of tax on petrol/kerosene engines up to 15 HP from the present rate of 28% to 12% to bring it at par with the applicable rate of tax on fixed speed diesel engines not exceeding 15HP. He informed that this issue was discussed during the officers meeting held on 9 March, 2018 and the officers also recommended that the representation of M/s Honda Siel Power Products Ltd. did not merit acceptance. He stated that in view of the order of the Hon'ble High Court of Delhi, the issue was placed before the Council for consideration in the light of the recommendations of the Fitment Committee and the officers meeting held on 9 March, 2018. The Council agreed, that the representation dated 22 September, 2017 of M/s Honda Siel Power Products Ltd. seeking to equalise the GST rate on petrol/kerosene engines not exceeding 15HP and fixed speed diesel engines not exceeding 15 HP did not merit consideration.

31. For **Agenda item 14(i)**, the Council did not accept the representation dated 22 September, 2017 of M/s Honda Siel Power Products Ltd. seeking to equalise the GST rate on petrol/kerosene engines not exceeding 15HP with that on fixed speed diesel engines not exceeding 15 HP.

Agenda item 14 (ii): Procedure to be followed for grant of *ad hoc* exemption on imports under Section 25 (2) of the Customs Act, 1962

32. Introducing this Agenda item, the Secretary stated that under Section 25(2) of the Customs Act, 1962, there is a provision to grant *ad hoc* exemption to import of specific consignments, which are extremely urgent in nature, such as in cases of import of goods for relief and rehabilitation, in cases of natural disasters, treatment of life threatening diseases, etc. It was proposed that the GST Council might allow grant of *ad hoc* exemption from IGST payable on such imported goods upon the approval of the Hon'ble Union Finance Minister as per the guidelines laid down in Circular No.09/2014-Customs dated 19 August, 2014, as was the case prior to the introduction of GST. All such *ad hoc* exemption orders, after their issue, shall be placed before the Council for information. The Council agreed to this proposal.

33. For **Agenda item 14(ii)**, the Council approved that the Hon'ble Union Finance Minister shall approve grant of *ad hoc* exemption from IGST payable on imported goods as per the guidelines laid down in Circular No.09/2014-Customs dated 19 August, 2014, as was the case prior to the introduction of GST. All such *ad hoc* exemption orders, after their issue, shall be placed before the Council for information.

Agenda item 14(iii): Appointment of Deputy Commissioner as member of Authority for Advance Ruling - Amendment in Rule 103 of the CGST Rules, 2017

34. The Secretary informed that this Agenda item proposed to amend Rule 103 of the CGST Rules, 2017 to permit appointment of officers up to the rank of Deputy Commissioner as members of the Authority for Advance Ruling. This was proposed because the State of Manipur and the Union Territory of Puducherry had represented that they had no post of Joint Commissioner in their State/UT. The Secretary informed that this proposal was discussed during the meeting of the officers held on 9 March, 2018 wherein it was recognised that making a change in the Rule would not solve the problem of these two administrations as the CGST and the SGST Acts had several other provisions such as issuing authorisation of search and seizure under Section 67 and authorising access to business premises under Section 71, where the power was vested in an officer not below the rank of Joint Commissioner. He added that during the officers meeting held on 9 March, 2018, the State of Manipur informed that they had already created the post of two Additional Commissioners and the Union Territory of Puducherry indicated that they would re-designate the post of Deputy Commissioner as Joint Commissioner. He further informed that the Union Territory of Chandigarh had also raised the issue of only having an Assistant Commissioner in their Administration and during the officers meeting of 9 March, 2018, it was decided that for all Union Territories, there would be only one Authority for Advance Ruling. He stated that in view of these administrative decisions, no change in Rules was required and that this Agenda item need not be pursued further. The Council agreed to this suggestion.

35. For **Agenda item 14(iii)**, the Council approved not to amend Rule 103 of the CGST Rules, 2017.

Agenda item 14(iv): Minutes of meeting on GST on Liquor license fee convened on 20th February, 2018

36. Introducing this Agenda item, the Secretary stated that during the earlier meetings of GST Council, it was decided to further examine the issue of levying GST on licence fee for alcoholic liquor for human consumption. He stated that he had chaired a meeting on this issue on 20 February, 2018 wherein officers from Punjab, Haryana, Himachal Pradesh, Telangana and Uttar Pradesh presented their views and suggestions. In view of the discussions, it was recommended that GST was not leviable on licence fee for alcoholic liquor for human consumption and that this would also apply *mutatis mutandis* to the demand raised by Service Tax/Excise authorities on licence fee for alcoholic liquor for human consumption in the pre-GST era i.e. for the period from 1 April, 2016 to 30 June, 2017. Dr. Sambasiva Rao, Special Chief Secretary (Revenue), Andhra Pradesh, suggested to suitably incorporate in the Minutes, the phrase 'licence fee and application fee by whatever name it is called'. The Council agreed to the suggestion of the Secretary as also the addition proposed by the Special Chief Secretary (Revenue), Andhra Pradesh.

37. For **Agenda item 14 (iv)**, the Council approved that GST was not leviable on licence fee and application fee by whatever name it is called for alcoholic liquor for human consumption and that this would also apply *mutatis mutandis* to the demand raised by Service Tax/Excise authorities on licence fee for alcoholic liquor for human consumption in the pre-GST era i.e. for the period from 1 April, 2016 to 30 June, 2017;

Other issues:

38. The Hon'ble Minister from Kerala raised the issue regarding making available State specific data up to the end of the financial year. The CEO, GSTN, stated that they had available with them invoice level data by way of GSTR-1 as well as data of GSTR-3B. These were automatically going to Model 1 States, which also included the State of Kerala. He added that GSTR-2A was generated on the basis of GSTR-1 and that two weeks back, they had made this data available through API (Application Programming Interface). He informed that Kerala officers could now see supplies received by buyers located in Kerala from sellers located anywhere in India.

39. The Hon'ble Deputy Chief Minister of Gujarat stated that the stakeholders had reported that the exporters were facing difficulty in obtaining tax refund on exports. The Secretary informed that the refund situation with respect to both IGST and input tax credit was reviewed during the officers meeting held on 9 March, 2018. He added that he had requested the States to expedite the refund of input tax credit. The Hon'ble Deputy Chief Minister of Gujarat stated that according to his information, the State officers were paying refund but the Central tax officers were not giving refund. The Secretary stated that officers of the Central Government as well as the State Governments would need to make all out efforts to pay refund expeditiously.

40. The Hon'ble Minister from Tamil Nadu circulated a written speech during the meeting of the Council and the same was taken on record. He emphasised that the outstanding request of his State with regard to exemption and reduction in rates of tax on goods and services made by various stakeholders, including trade and industry from Tamil Nadu, should be favourably considered at the earliest.

Agenda item 15: Date of the next meeting of the GST Council

41. The Hon'ble Chairperson stated that the date for the next meeting of the Council shall be informed in due course.

42. The Meeting ended with a vote of thanks to the Chair.

Annexure 1

List of Hon'ble Ministers who attended the 26th GST Council Meeting on 10 March, 2018

SI No	State/Centre	Name of Hon'ble Minister	Charge
1	Govt of India	Shri Arun Jaitley	Union Finance Minister
2	Govt of India	Shri S.P. Shukla	Minister of State (Finance)
3	Bihar	Shri Sushil Kumar Modi	Deputy Chief Minister
4	Chhattisgarh	Shri Amar Agrawal	Minister of Commercial taxes
5	Delhi	Shri Manish Sisodia	Deputy Chief Minister
6	Goa	Shri Mauvin Godinho	Minister for Panchayat
7	Gujarat	Shri Nitinbhai Patel	Deputy Chief Minister
8	Haryana	Capt. Abhimanyu	Excise & Taxation Minister
9	Jammu & Kashmir	Shri Haseeb. A. Drabu	Finance Minister
10	Jharkhand	Shri C.P. Singh	Minister - Department of Urban Development, Housing and Transport
11	Karnataka	Shri Krishna Byre Gowda	Minister - Agriculture
12	Kerala	Dr. T. M. Thomas Isaac	Minister for Finance
13	Madhya Pradesh	Shri Jayant Malaiya	Minister of Finance & CT
14	Manipur	Shri Yumnam Joykumar	Deputy Chief Minister
15	Meghalaya	Shri Conrad K. Sangma	Chief Minister
16	Odisha	Shri Shashi Bhusan Behera	Finance Minister
17	Punjab	Shri Manpreet Singh Badal	Finance Minister
18	Rajasthan	Shri Rajpal Singh Shekhawat	Minister - Industries
19	Tamil Nadu	Shri D. Jayakumar	Minister for Fisheries and Personnel & Administrative Reforms
20	Uttar Pradesh	Shri Rajesh Agrawal	Finance Minister

Annexure 2**List of Officials who attended the 26th GST Council Meeting on 10 March, 2018**

Sl No	State/Centre	Name of the Officer	Charge

 - **Notification No 02/2018 – Central Tax dated 20th January 2018 was issued**
- Postponing the implementation of E-Way Bill Rules for both inter-State and intra-State movement of Goods due to technical glitches as reported by GSTN. It was decided that the rules will come in force from a date notified later.
 - ✓ **Notification No 11/2018 – Central Tax dated 02nd February 2018 was issued**

Decisions of the 12th GIC Meeting

- It was proposal to set up a Grievance Redressal Mechanism to address technical glitches in GSTN.
- In view of the orders of the Hon'ble High Courts of Allahabad & Mumbai and specific direction of the Hon'ble High Court of Mumbai that a grievance redressal mechanism be put in place to address the problems faced by the taxpayers due to glitches in GSTN.
 - ✓ **Member (GST), CBEC was authorised to take appropriate decision to comply with the orders of the Hon'ble High Courts of Allahabad & Mumbai relating to delay in filing of various returns and TRAN-1 due to glitches in GSTN and to keep penalty and fine in abeyance**
 - ✓ **Issue is before Council as separate Agenda No. 7**

5

Decisions of the 13th GIC Meeting (1/4)

Amendments in the e-Way bill rules (Effective date to be notified – Rule 138(7) not proposed to be notified immediately)

- Transporters, e-commerce companies & courier agencies may fill **PART-A** of **FORM EWB-01** after getting an authorisation for doing so from the registered person.
- Value of exempt supply has been excluded from the consignment value.
- Mandatory e-way bill in case of movement of goods by public transport.
- In case of movement of goods by railway, air or vessel, the e-way bill can be generated even after commencement of movement.
- Railways have been exempted from e-way bill with the condition that without the production of e-way bill, railway will not deliver the goods to the recipient.
- Distance from the place of consignor to the place of transporter for which **PART-B** of **FORM EWB-01** may not be filled has been increased to 50 km from 10 km to handle practical issues and to facilitate express delivery industry.
- Transporter can extend validity period in case of transshipment also.

6

Decisions of the 13th GIC Meeting (2/4)

Amendments in the e-Way bill rules (Effective date to be notified – Rule 138(7) not proposed to be notified immediately)

- Consignor/consignee or the transporter now have 15 days (as compared to 72 hours) to fill the information in **PART-B** of **FORM EWB-01**.
- Recipient to communicate acceptance or rejection within 72 hours or time of delivery whichever is earlier.
- Carrying e-way bill in physical form is no longer mandatory and may be carried in electronic form.
- Over Dimensional Cargo (ODC) to have a separate validity period of e-Way bill for movement of ODC (20 km per day).
- In addition to regular vehicle numbers in **PART-B** of **FORM EWB-01**, entries can also be made for vehicle numbers of Defence forces, Temporary Registration Numbers and Vehicle numbers from Bhutan and Nepal.
- Exemption from e-way bill granted in few more cases.
 - ✓ **Notification No 12/2018 – Central Tax dated 07th March 2018 was issued**

7

Change proposed in Officer's Meeting held on 09.03.2018

Amendments in the e-Way bill rules proposed in Officer's meeting held on 09.03.2018

- Facility extended to Railways should not be extended to the goods transported by persons other than railways – Explanation may be inserted below Rule 138(2A):
 - ✓ *Explanation.-* For the purposes of this chapter, the expression 'railways or rail' does not include the 'leasing of parcel space by railways'.

8

Annexure 5

Presentation on GST Return Filing

Steps of the proposed return design :

- **Monthly return:** There shall be monthly return for all taxpayers except those who are composition dealers (quarterly returns). Total no of returns = 12.
- **Return design:** The proposed monthly return shall consist of summary return like present GSTR 3B and as its annexure invoices for outward supplies and inward supplies attracting reverse charge.
- **No system based matching:** Matching would be done offline by the taxpayer.
- **Continuous viewing of invoices:** Recipient would be able to continuously see the invoice uploaded by the supplier and its tax payment status. (Locking facility can be considered to be made available as an IT facilitation measure.)

Contd:

- **Offline Utility** - An offline tool will be provided to the Buyer assist in return filing and downloading supplier's invoice.
- **Return filing shall be spread out:** Above Rs 1.5 Cr by 10th and Lower by 20th of the next month, except composition dealer etc.
- **Continuous facility to add invoice:** Seller would have continuous facility to add invoices for the past period and pay tax thereon.
- **Input tax credit:** Input tax credit shall be provisionally taken on the basis of receipt of goods and covering invoices. (Declaration at aggregated level). Finalisation of credit on seller paying the tax.
- **Partial payment of tax:** Partial payment of tax on self assessment basis shall be allowed. Buyer to be shown the tax payment status.

3

Return and reconciliation of credit - Return is one stage but credit reconciliation takes place in three steps.

(i) Main return: This would be a summary return with outward supply invoices and reverse charged inward supply invoices as annexure. Input tax credit would be availed on self declaration basis.

(ii) Rectification platform: This IT platform would provide facility to continuously add missing invoices, credit note and debit note for the past period and pay tax liability thereon.

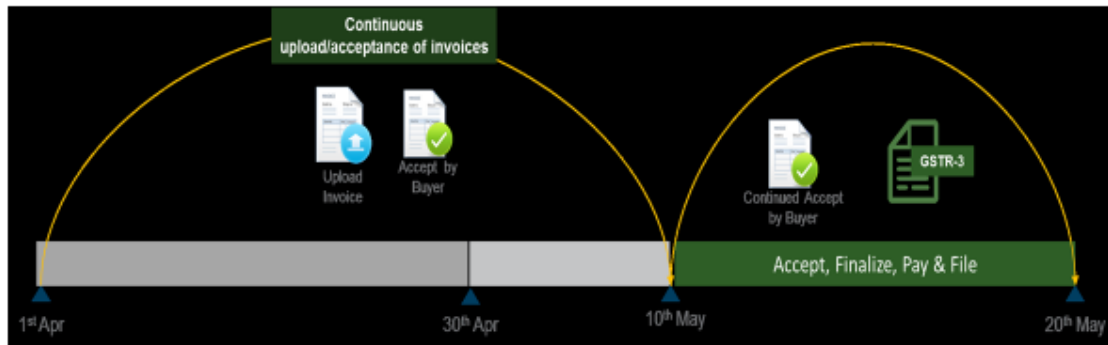

(iii) Reversal of credit: On expiry of the rectification period, excess credit taken, shall be self assessed and reversed. Credit can be retaken by buyer if seller pays the tax later. Cases of large difference to be taken up for audit/scrutiny. (Auto-reversal only if programmable, within acceptable limits and approved by the Council.)

Note: GST Council may extend the rectification period or the date for the reversal of input tax credit.

4

April	May	June	July	August	Sept	Oct	
Continuous viewing of April invoices.	PAY	Add missing /Pay for April invoices	Add missing /Pay for April invoices	N 1	Add missing /Pay for April invoices	Reconciliation Statement.	
		Revenue gain due to addition of missing April invoices and tax payment (self policing mechanism).					Challenge is auto-reversal of input tax credit.

5

- **IT Model** : Continuous upload and acceptance as part of business cycle. No return.
- ITC available only on supplier uploaded invoices. No provisional credit to be given.
- ITC linked to admittance of liability and not on payment of tax by the supplier.
- Key benefits: Simplicity, incentive aligned and high quality data.
- Shifting control to the seller's side: Uncharted territory in law and for trade.

No Credit-Tax payment linkage	Credit-Tax payment linked
Provisional Credit gets removed from the economy leading to cash requirement of 50,000 Crore.	System allows provisional credit initially and reconciliation with tax paid invoices happens later.
Default in tax payment grows the system is not self policing.	System is capable of self policing. Default in tax-credit linked systems are less than 10% in VAT.
Resources available with the tax administration may not be adequate to chase defaulters. Intrusive also.	Self policing ensures that tax administration has to intervene in lesser number of cases.
Refund of accumulated credit without tax payment.	Refund linked to actual tax payment.
Some IGST settlement without payment of tax. Centre's assurance to State of 14% growth would put stress on Centre's revenue.	No issues with tax payment settlement. Final settlement would be more realistic due to reversals.
Locking of each invoice on the system is a high compliance burden. Erroneous locking creates trouble.	Action on individual invoice happens offline. The reconciliation Statement portion of the design adds to the compliance burden.
Shifting control to the seller's side takes the design to the completely unknown territory for trade, in law and for revenue administration.	Trade has accepted the concept of input tax credit being linked to the tax payment.

7

Conclusion:

- GOM directed that the issue of **tax payment-credit linkage and availability of provisional credit** be decided in the GST Council. Officers view is in the affirmative for both.
- Buyer would be shown the difference between tax paid by sellers and input tax credit availed.
- Where the difference is high, reconciliation statement would be required to be filed. Excess credit to be self assessed and reversed. Non-filing to lead to audit.
- Auto-reversal to be taken up only after system experience.
- GSTR 3B and GSTR 1 **shall continue** for another three months after the 1st of April, 2018.

8

Agenda Item 2: Deemed ratification by the GST Council of Notifications, Circulars and Orders issued by the Central Government

In the 22nd meeting of the GST Council held at New Delhi on 06th October, 2017, it was decided that the notifications, Circulars and orders which are being issued by the Central Government with the approval of the competent authority shall be forwarded to the GST Council Secretariat, through email, for information and deemed ratification by the GST Council. Accordingly, in the 26th Meeting held on 10th March, 2018, the GST Council had ratified all the notifications, Circulars and orders issued before the said date.

2. In this respect, the following notifications, Circulars and orders issued after 10th March, 2018 (i.e., the date of the 26th GST Council Meeting), till 24th April, 2018, under the GST laws by the Central Government, as available on www.cbec.gov.in, are placed before the Council for information and ratification:-

Act/Rules	Type	Notification Nos.
CGST Act/CGST Rules	Central Tax	14 to 21 of 2018
	Central Tax (Rate)	10 of 2018
IGST Act	Integrated Tax (Rate)	11 of 2018
UTGST Act	Union territory Tax	02 to 06 of 2018
	Union territory Tax (Rate)	10 of 2018
Circulars	Under the CGST Act	36 to 43 of 2018
Orders	Under the CGST Act	01 and 02 of 2018

3. The GST Council may grant deemed ratification to the Notifications, Circulars and Orders listed above.

Agenda Item 3: Decisions of the GST Implementation Committee (GIC) for information of the GST Council

GIC took certain decisions between 10 March 2018 (when the 26th GST Council Meeting was held) and 24 April 2018 (before the 27th GST Council Meeting scheduled on 01 May 2018). Post the Council Meeting, whenever there were issues which required immediate resolution, the approval of the GST Implementation Committee was sought and consequential notifications/circulars/orders were issued. Due to the urgency involved, certain decisions were taken after obtaining approval by circulation amongst the GIC Members. The details of the decisions taken are given below:

2. 14th GIC Meeting – 19 March 2018

2.1. The 14th GIC Meeting was held on 19 March 2018 through Video Conference. The 3 agenda items taken up for discussion and their outcome are as follows:

2.2 Agenda Item 1 – Amendment of rule 45 of CGST Rules, 2017

2.2.1 Based on the recommendation of Law Committee in its meeting held on 08.03.2018 and 09.03.2018, a proposal was put forward by Shri Upender Gupta, Commissioner (GST Policy Wing), CBIC to carry out following amendments in rule 45 of the CGST Rules, 2017 to provide for the movement of goods from one job-worker to another job-worker under the cover of a challan.

I. Rule 45, may be amended as follows (shown in italics, underlined):

“45. Conditions and restrictions in respect of inputs and capital goods sent to the job worker.-(1)The inputs, semi-finished goods or capital goods shall be sent to the job worker under the cover of a challan issued by the principal including where such goods are sent directly to a job-worker, *and where the goods are sent from one job worker to another job worker, the challan may be issued either by the principal or the job worker sending the goods to another job worker:*

Provided that the challan issued by the principal may be endorsed by the job worker, indicating therein the quantity and description of goods where the goods are sent by one job worker to another or are returned to the principal:

Provided further that the challan endorsed by the job worker may be further endorsed by another job worker, indicating therein the quantity and description of goods where the goods are sent by one job worker to another or are returned to the principal.”

II. Pari materia changes would have to be carried out in the SGST Rules, 2017

2.2.2 GIC approved the proposal to carry out the said amendment in rule 45 of the CGST Rules, 2017 and the SGST Rules, 2017. Subsequently, Notification No. 14/2018 – Central Tax was issued on 23 March 2018.

2.3 Agenda Item 2 – Due dates for filing the returns and details in FORM GSTR-3B and FORM GSTR-1

2.3.1. Following proposals were put forward by Commissioner (GST Policy Wing), CBIC regarding specifying due dates for filing the returns and details in FORM GSTR-3B and FORM GSTR-1

- I. The GST Council in its 26th meeting held on 10th March, 2018 recommended that the present system of filing of **FORM GSTR 3B** and **FORM GSTR 1** shall be extended for another three months i.e., April to June, 2018 till the new system of return filing is finalized.
- II. Accordingly, it is proposed to specify the following due dates for filing of FORM GSTR 3B and FORM GSTR 1, for the months/quarter from April to June, 2018:

Monthly filing of FORM GSTR 3B (for all taxpayers)

Sl. No	Month	Last date for filing of return in FORM GSTR-3B
	April, 2018	20 th May, 2018
	May, 2018	20 th June, 2018
	June, 2018	20 th July, 2018

Quarterly filing of FORM GSTR 1 (for taxpayers with annual turnover upto Rs. 1.5 crore)

Sl. No	Quarter	Last date for filing of return in FORM GSTR-1
1.	April-June, 2018	31 st July, 2018

Monthly filing of FORM GSTR 1 (for taxpayers with annual turnover above Rs. 1.5 crore)

Sl. No	Month	Last date for filing of return in FORM GSTR-1
1.	April, 2018	31 st May, 2018
2.	May, 2018	30 th June, 2018
3.	June, 2018	31 st July, 2018

2.3.2. Shri Mahender Singh, Member (GST), CBIC suggested that since the Committee on Return Filing is looking into the question of filing GSTR-1 before GSTR-3B, GIC may decide on the due dates for GSTR-3B only and that the decision on the due dates for GSTR-1 may be taken at the next meeting of the GIC after the proposal has been discussed in the Law Committee. CCT, West Bengal stated that there needs to be standardization of the dates for returns. She also requested the other members of the GIC to consider the feasibility of changing the due dates for GSTR-3B. Commissioner (GST Policy Wing), CBIC clarified that the due date for the said return is mentioned in the law and that changing the dates would also complicate the process of fund settlement.

2.3.3 After discussion, the GIC agreed to the proposal made by Member (GST), CBIC and agreed to the following due dates.

Monthly filing of FORM GSTR 3B (for all taxpayers)

Sl. No	Month	Last date for filing of return in FORM GSTR-3B
1.	April, 2018	20 th May, 2018
2.	May, 2018	20 th June, 2018
3.	June, 2018	20 th July, 2018

2.3.4. GIC further agreed that the due date for filing of FORM GSTR-1 would be decided later. Accordingly, Notification No. 16/2018 – Central Tax was issued on 23 March 2018.

2.4 Agenda Item 3 – Circular to be issued for clarification of job work provisions

2.4.1 In view of the difficulties being faced by tax payers in the interpretation of the provisions related to job-work, and to ensure uniformity in implementation across field formations, it was proposed that a Circular may be issued by the Board, under section 168 (1) of the CGST Act, 2017, to clarify certain legal and procedural aspects related to job-work. Commissioner (GST Policy Wing), CBEC stated that certain editorial changes have been made in the circular after its circulation to the GIC members and he explained these editorial changes.

2.4.2. After discussion, the GIC approved the issuance of Circular clarifying the provisions related to job-work. Accordingly, Circular No. 38/2018 was issued on 26 March 2018.

3. 15th GIC Meeting – 26 March 2018

3.1. The 15th GIC Meeting was held on 26 March 2018 through Video Conference. The 9 agenda items taken up for discussion and their outcome are as follows:

3.2. Agenda Item 1 – Finalization of IT Grievance Redressal Mechanism

3.2.1. Sh. Manish Kumar Sinha, Commissioner (CX), CBEC briefed about the proposed IT Grievance Redressal Mechanism in light of the recent judgments of Hon'ble High Courts. The GST Council in its 26th Meeting held on 10th March, 2018 approved that GIC shall act as the IT Grievance Redressal Mechanism and that in GIC meetings convened to address IT issues or IT glitches, the CEO, GSTN, and the DG (Systems), CBEC, shall invariably be called as special invitees.

3.2.2 Sh. Manish Sinha, Commissioner (CX), CBEC explained that the last date of submission of TRAN-1 was 27 December 2017 and that about 17, 573 taxpayers could not complete the TRAN-1 filing, where the ledger had been populated/revised without digital authentication. Sh. Prakash Kumar, CEO, GSTN made a presentation detailing the number of TRAN-1s filed from 22 December 2017 to 27 December 2017 and the details of credit claimed for the above mentioned 17,573 cases. Sh. Sanjeev Kaushal, Additional Chief Secretary, Haryana observed that these cases are only cases of pending digital authentication and that there could be other cases where the taxpayers could not file TRAN-1s. He also asked for a clarification whether these 17,573 cases are pertaining to some

specific area or are spread throughout the country. CEO, GSTN clarified that he did not have the State-wise figures and this was an all-India figure. Commissioner (CX) also clarified that the Government does not wish to concede the cases where there is no collateral evidence showing that the taxpayer had tried to file the TRAN-1. He suggested that a decision may be taken for the 17,573 cases where there is evidence that the taxpayer had tried to file but was not able to complete the process of digital authentication and yet the ledger had been populated or revised. He further stated that it needs to be made clear that the deadline of 27 December 2017 is not being extended and the values that were filled in the forms will not be allowed to be changed during this exercise.

3.2.3 CCT, West Bengal noted that there were other cases of different nature too, where the taxpayers could not file the TRAN-1 entirely. Member (GST), CBIC stated that a decision may be taken regarding 17,573 cases first and the rest can be handled later based on specific agenda, if any. ACS, Haryana stated that the judgments are silent on the 'digital signature' part and asked whether the proposal covers all the cases where the taxpayers could not file TRAN-1. Commissioner (CX) clarified that the judgments were not very specific and that setting up of IT Grievance Redressal Mechanism will allow the Government to file proper reply before the courts. He also confirmed that for other cases, a facility will be provided where the taxpayers can approach the State and Central nodal officers who can verify the facts and forward the applications to GSTN to confirm if there was actually an IT glitch in the GSTN portal. The proposals can then be recommended to GIC for consideration. He noted that any such procedure will apply only in cases where large number of taxpayers were affected due to IT glitches and not due to non-availability of local internet connectivity or failure of power supply etc., which affected the individual cases.

3.2.4 Commissioner (GST Policy Wing), CBIC stated that there is no provision in the law to allow waiver of interest. ACS, Haryana suggested that a provision allowing for waiver of interest may be proposed for the Council to take a decision. Commissioner (GST Policy Wing), CBIC suggested that a deadline of one month can be given to file the TRAN-1 from the date this facility is given. Member (GST) suggested deadline of 30th April 2018 for filing TRAN-1 and 31st May 2018 for filing GSTR-3B.

3.2.5 After discussion, the GIC approved the following:

- i) To issue a circular detailing the IT Grievance Redressal Mechanism.
- ii) Following procedure to be adopted by GSTN for the identified 17,573 cases.
 - a) GSTN shall identify the taxpayers who tried but were not able to complete TRAN-1 procedure (original or revised) of submitting and filing them due to IT-glitch before 27.12.2017 on the basis of electronic audit trail. It is clarified that the last date for filing of TRAN 1 is not being extended in general and it was only being approved for this select group of taxpayers who had initiated the procedure before the due date but could not complete the same.
 - b) Only these identified taxpayers shall be allowed to complete the process of filing of TRAN-1. If needed, GSTN may request field formations of the Centre and the States to collect

additional document/ data etc. or verify the same to identify taxpayers who should be allowed the benefit of this procedure.

- c) The amount of credit in TRAN-1 shall not be allowed to be amended during this process vis-à-vis the amount of credit which was recorded by the taxpayer in the TRAN-1, which could not be filed.
- d) GSTN shall communicate directly with the taxpayers in this regard and submit a final report to GIC about the number of TRAN-1s filed and submitted through this process.

iii) The decisions of the Hon’ble Allahabad High Court in the cases of M/s Rasik Products Pvt. Ltd., M/s National Chemicals and Dyes Co. and M/s Dev Priya Industries Pvt. Ltd and similar orders may be executed in-line with the procedure prescribed above subject to fulfilling the conditions prescribed therein. Where these conditions are not satisfied, Hon’ble Courts may be suitably informed and if needed, review or appeal may be filed.

(iv) The process of completing filing of TRAN 1 stuck due to IT glitches in terms of clause (ii) above shall be completed by 30 April 2018 and the process of completing filing of GSTR 3B which could not be filed for such TRAN 1 cases, shall be completed by 31 May 2018.

3.2.6. Accordingly, Circular No. 39/2018 was issued on 26 March 2018.

3.3. **Agenda Item 2 - Due dates for filing the returns and details in FORM GSTR-1**

3.3.1 The GST Council in its 26th meeting held on 10th March, 2018 recommended that the present system of filing of FORM GSTR 3B and FORM GSTR 1 shall be extended for another three months i.e., April to June, 2018 till the new system of return filing is finalized.

3.3.2 Accordingly, it was proposed to specify the following due dates for filing FORM GSTR-1 for the months/quarter from April to June, 2018.

Quarterly filing of FORM GSTR 1 (for taxpayers with annual turnover upto Rs. 1.5 crore)

Sl. No	Quarter	Last date for filing of return in FORM GSTR-1
2.	April-June, 2018	10 th July, 2018

Monthly filing of FORM GSTR 1 (for taxpayers with annual turnover above Rs. 1.5 crore)

Sl. No	Month	Last date for filing of return in FORM GSTR-1
4.	April, 2018	31 st May, 2018 [Last date for filing of FORM GSTR-1 for the month of March, 2018 is 10 th May, 2018, vide notification No. 58/2017-Central Tax, dated 15.11.2017]
5.	May, 2018	10 th June, 2018
6.	June, 2018	10 th July, 2018

3.3.3 CCT, West Bengal observed that the due date for quarterly returns of smaller taxpayers and returns for the month of June of bigger taxpayers is same and that it may put significant load on the IT system. Commissioner (GST Policy Wing), CBIC proposed that the due date of quarterly GSTR-1 returns may be specified as 31 July 2018 instead of 10 July 2018.

3.3.4 After discussion, GIC approved the following due dates for filing of FORM GSTR-1 for the months/quarter from April to June, 2018 through notifications.

Quarterly filing of FORM GSTR 1 (for taxpayers with turnover upto Rs. 1.5 crores)

Sl. No	Quarter	Last date for filing of return in FORM GSTR-1
	April-June, 2018	31 st July, 2018

Monthly filing of FORM GSTR 1 (for taxpayers with turnover above Rs. 1.5 crores)

Sl. No	Month	Last date for filing of return in FORM GSTR-1
1.	April, 2018	31 st May, 2018
2.	May, 2018	10 th June, 2018
3.	June, 2018	10 th July, 2018

3.3.5 Accordingly, Notifications No. 17/2018, No. 18/2018 were issued on 28 March 2018.

3.4. Agenda Item 3 - Amendment of Rule 97 of CGST Rules, 2017

3.4.1 Commissioner (GST Policy Wing), CBIC informed that after receiving the draft rules from the Department of Consumer Affairs, the Law Committee recommended the amendment of the existing rule 97 of the CGST Rules, 2017 pertaining to Consumer Welfare Fund.

3.4.2 ACS, Haryana observed that in one of the meetings of the GST Council, the Council made an observation that the GIC may limit itself to procedural changes only and that changing the rules may amount to substantial change. Member (GST), CBIC clarified that the amendment in rules is required to allow for the deposit of provisional amount being submitted by the taxpayers. Commissioner (GST Policy Wing), CBIC stated that the changes proposed in the rules are procedural in nature and that *pari materia* changes would also be required to be carried out in the respective SGST Rules. ACS, Haryana noted that further clarity may be given with respect to the amount of such money submitted and distribution of the provisional amount between CGST and SGST. Commissioner (GST Policy Wing), CBIC clarified that the matter is pending with the National Anti-profiteering Authority (NAPA) but the changes in rules are necessary for setting-up the Consumer Welfare Funds (CWF). CCT, West Bengal inquired whether once the funds are credited to the Centre's CWF, they could be adjusted later in favour of the States. ACS, Haryana observed that the changes appear to be significant and they can be studied further and can be discussed in the next meeting. He also suggested that the facts relating to the case of Hindustan Unilever may be shared with the States. Sh. T.V. Somanathan, Principal Secretary/Commissioner Commercial Tax, Tamil Nadu inquired whether the orders of the Anti-profiteering Authority specify the apportionment of the money into CGST and SGST heads. Commissioner (GST Policy Wing) clarified that this

discussion would be recorded in the minutes and would be brought to the notice of the NAPA. ACS, Haryana stated that a decision regarding this may be taken at the next meeting of the GIC so that they can have consultation within their Government.

3.4.3 After discussion, the GIC decided to defer the agenda item to the next meeting.

3.5. **Agenda Item 4 - Supply of food and/or drinks in the railways**

3.5.1 Sh. Amitabh Kumar, Joint Secretary (TRU-II) stated that in the 23rd Meeting of the GST Council held at Guwahati, the rate on service of supply of food was reduced to 5% without ITC subsequent to which the Indian Railways issued a circular stating that supplies from static catering units such as restaurants, eating joints, mess, canteens be taxed at 5% and that supply of food on trains be taxed at 18%. He further stated that additional complexities exist in cases where the consumer makes the payment in advance as in Rajadhani and Shatabdi trains in which the food charges are included in the ticket price and in cases where the consumer pays in advance but has an option whether to pay for food. ACS, Haryana observed that similar situation existed in the case of Airlines and chartered buses. Special Secretary, GST Council commented that similar issue was there with office canteens as well.

3.5.2. After discussion, GIC decided to approve the proposal to clarify that GST rate on supply of food and/or drinks by Indian Railways/IRCTC or its licensees/contractors whether in trains or at platforms (static catering units) is 5% without ITC. It was also decided that the Fitment Committee may further study similar cases.

3.5.3 Accordingly, Order No. 02/2018-GST was issued on 31 March 2018.

3.6. **Agenda Item 5 - Extending the time limit for filing refund claims by agencies holding UIN, Canteen Stores Department (CSD) and any other category of person notified under section 55 of the CGST Act.**

3.6.1 As the IT system for enabling applying for refunds by agencies holding UIN, CSD and any other category of person notified under section 55 of the CGST Act has been put in place very recently, it was proposed that the time limit of six months for applying for refunds by agencies holding UIN and CSD under sub-section (2) of section 54 of the CGST Act may be extended to 24 months from the last date of the quarter in which the inward supply of goods or services was received. For example, the last date for applying for refund for the quarter ending 30th September, 2017 would be 30th September, 2019 (instead of 31st March, 2018).

3.6.2. Commissioner (GST Policy Wing), CBIC stated that the extension has to be done under special procedure under Section 148 of the CGST Act. He further stated that inability of the embassies to apply for refund is leading to avoidable diplomatic situations. He further informed that GSTN was holding workshops for embassies to educate them on filing of returns. CCT, West Bengal requested that similar sessions may be conducted in Kolkata also.

3.6.3. After discussion, GIC approved the decision to extend the time limit for applying for refunds under sub-section (2) of section 54 of the CGST Act to 18 months from the last date of the quarter

in which the inward supply of goods or services was received by agencies holding UIN, CSD and any other category of person notified under section 55 of the CGST Act. For example, the last date for filing of refund application in respect of goods or services or both during the quarter July to September, 2017 would be 31st March, 2019 (instead of 31st March, 2018).

3.6.4. Accordingly, Notification No. 20/2018- Central Tax was issued on 28 March 2018.

3.7. Agenda Item 6 - Extension of date for filing the return in FORM GSTR-6

3.7.1 On the basis of the request received from GSTN, the Law Committee recommended extending the due date for filing the return in FORM GSTR-6 by an Input Service Distributor for the months of July, 2017 to February, 2018 till 31st May, 2018.

3.7.2 Commissioner (GST Policy Wing), CBIC observed that though the proposal was for July 2017 to February 2018 only, dates for the months of March 2018 and April 2018 may also be extended to 31st May 2018 as the last date for returns for the said months is 13th April, 2018 and 13th May 2018 respectively.

3.7.3. After discussion, GIC approved the extension of the due date for filing the return in FORM GSTR-6 by an Input Service Distributor for the months of July, 2017 to April, 2018 till 31st May, 2018 through a notification.

3.7.4. Accordingly, Notification No. 19/2018 – Central Tax was issued on 28 March 2018.

3.8. Agenda Item 7 - Extension of date for filing the statement in FORM GST TRAN-2

3.8.1. On the basis of the request received from GSTN, the Law Committee recommended extending the due date for filing the statement in FORM GST TRAN-2 by registered persons entitled to take credit of input tax in accordance with the proviso to sub-section (3) of section 140 of the CGST Act, 2017, till 30th June, 2018.

3.8.2. After discussion, GIC approved extension of due date for filing the statement in **FORM GST TRAN-2** till 30th June, 2018, through the issuance of an order under rule 117 (4) (b) (iii) of CGST Rules, 2017.

3.8.3. Accordingly, Order No. 01/2018-GST was issued on 28 March 2018.

3.9. Agenda Item 8 – Changes in CGST Rules, 2017

3.9.1 The Law Committee in its meetings held on 22nd and 23rd March, 2018 has proposed amendments in rule 89(5) of the CGST Rules, 2017 to amend the formula for calculating the maximum amount of refund admissible and definition of ‘Net ITC’ and amendment to FORM GST DRC-07 to provide for mentioning the amount payable in respect of release of seized goods (including impounded vehicles).

3.9.2 Commissioner (GST Policy Wing), CBIC proposed that this agenda item may be taken up along with the agenda related to Consumer Welfare Fund Rules in the next GIC Meeting.

3.9.3 GIC agreed that the agenda item may be taken up in the next meeting.

3.10. **Table Agenda – Pendency of GST Practitioners applications**

10.1 Special Secretary, GST Council observed that, based on the data shared by GSTN, only 23% of the GSTP applications have been approved and that the Centre and the States may direct their officers to accelerate the process and liquidate the pending applications. CCT, West Bengal requested that the State-wise breakup may be shared. Commissioner (GST Policy Wing), CBIC stated that the GSTN would be requested to share the data with the States.

4. **16th GIC Meeting – 10 April 2018**

4.1. The 16th GIC Meeting was held on 10 April 2018 through Video Conference. The 9 agenda items taken up for discussion and their outcome are as follows:

4.2. **Agenda Item 1 – Notifying the Final Return to be filed in FORM GSTR-10**

4.2.1. Commissioner (GST Policy Wing), CBIC briefed the GIC about the final return that every registered person whose registration has been cancelled shall furnish. Sh. P.D. Vaghela, CCT, Gujarat proposed to delete entries numbered 5 and 7 from the form which mandated the assessee to disclose the Application Reference Number (ARN) and the status of order of cancellation of registration, as only those assesseees who receive the order of cancellation electronically will be able to submit **FORM GSTR-10**. Commissioner (GST Policy Wing), CBIC suggested that the words “if yes,” from the entry number 8 of the form may be deleted for the same reason.

4.2.2. Sh. Khalid Anwar, Joint Commissioner, West Bengal suggested that since sub-section (5) of Section 29 of the CGST Act mandates the assessee to pay an amount equivalent to the credit of input tax in respect of *plant and machinery* and the details are asked in **FORM GST-REG 16** when the assessee applies for cancellation of registration, the same may be included in **FORM GSTR-10**. It was further agreed to replace “Amount of ITC claimed” by “Input Tax Credit/Tax Payable (whichever is higher)” in the table. He further suggested that a new entry 10(d) should be added giving details of inputs held in stock or inputs as contained in semi-finished /finished goods held in stock, where invoice is not available.

4.2.3 CCT, Gujarat observed that the instruction no. 3(ii) at the end of the form needs to be changed in line with Rule 44(1)(b) of the CGST Rules. It was further observed that a table will be added indicating interest, late fee amount payable and paid. It was agreed that declaration as contained in **FORM REG-16** will be kept in this format as well.

4.2.4. After discussion, GIC approved notifying the FORM GSTR-10.

4.2.5. Accordingly, Notification No. 21/2018 – Central Tax was issued on 18 April 2018.

4.3. **Agenda Item 2 – Changes in CGST Rules, 2017**

4.3.1. Commissioner (GST Policy Wing), CBIC stated that Section 54(3)(ii) of the CGST Act,

2017 does not allow for refund of taxes on account of inverted duty structure in case of input services, whereas, there is no restriction to avail the refund where the outward supply is that of services, Rule 89(5) of the CGST Rules needed to be amended to modify the formula for calculating Maximum Refund Amount according to the Act.

4.3.2. Commissioner (GST Policy Wing), CBIC stated that FORM GST DRC-07 needed to be amended in order to provide for mentioning the amount payable in respect of release of seized goods (including impounded vehicles) as provided under rules 140 and 141 of the CGST Rules, 2017.

4.3.3 After discussion, GIC agreed to the following:

4.3.3.1 Amend the Rule 89(5) of the CGST Rules as below (indicated in underlined italics and italics strikethrough mode).

Maximum Refund Amount = {(Turnover of inverted rated supply of goods and services) x Net ITC ÷ Adjusted Total Turnover} - tax payable on such inverted rated supply of goods and services

Explanation: For the purposes of this sub-rule, the expression:-

- (i) “**Net ITC**” shall mean input tax credit availed on inputs **and input services** during the relevant period other than the input tax credit availed for which refund is claimed under sub-rules (4A) or (4B) or both;
- (ii) “**Adjusted Total Turnover**” shall have the same meaning as assigned to it in sub-rule (4).

4.3.3.2 Amend the **FORM GST DRC-07**.

4.3.4. Accordingly, Notification No. 21/2018 – Central Tax was issued on 18 April 2018.

4.4. **Agenda Item 3 – Amendment of Rule 97 of CGST Rules, 2017**

4.4.1. Commissioner (GST Policy Wing) stated that Rules regarding the management of Consumer Welfare Fund needed to be amended, after taking inputs from the Department of Consumer Affairs, Ministry of Consumer Affairs, Food & Public Distribution and that such amendment would enable crediting of provisional amounts received from taxpayers to the Consolidated Fund. It was pointed out that finalization of the new Consumer Welfare Fund Rules was extremely urgent as provisional amount received from one of the large corporate entities on account of possible profiteering was required to be deposited in the Fund.

4.4.2 CCT, Gujarat observed that an explicit mention of the Standing Committee’s powers (as proposed in amended Rule 97) to distribute the provisional amount between Centre and States had to be made. Commissioner (GST Policy Wing), CBIC clarified that under the proposed Rule 97(8)(a), the Committee can recommend making available grants to any applicant and that as per the explanation to the said Rule, the Central Government or any State Government can be treated as an applicant. ACS, Haryana observed that such provision would mean that the State Governments have to make an application to the Committee for distribution of the amount. CCT, West Bengal suggested that a sub-Rule 97(8)(f) may be added for explicitly mentioning the authority of the Committee.

4.4.3 CCT, Gujarat suggested that a new Rule may be made to mandate the Committee to pass an order for distribution of amount following the order of National Anti-profiteering Authority (NAA). Commissioner (GST Policy Wing), CBIC stated that Rule 127 of the CGST Rules, which specifies

the duties of the Authority may be amended to mandate the Authority to determine the distribution of amount between the Centre and States.

4.4.4 There was also discussion if amount collected in lieu of Cess, based on order of NAA should also be distributed between the Centre and States. The discussion was inconclusive and it was decided that it could be discussed in the forthcoming Law Committee meeting.

4.4.5 After discussion, GIC approved the amendment of Rule 97 of CGST Rules, 2017. The said rule in the State GST Rules would read differently. It was further agreed that issue of possible new sub-Rule regarding distribution of amount following order of NAA and that for distribution of Cess shall be discussed in the forthcoming Law Committee meeting and then taken up in the next GIC meeting.

4.4.6. Accordingly, Notification No. 21/2018 – Central Tax was issued on 18 April 2018.

4.5. Agenda Item 4 – Early roll out of e-way bill for intra-State movement of goods in the State of Tripura

4.5.1. Commissioner (GST Policy Wing), CBIC stated that a letter was received at the GST Council Secretariat from the State of Tripura to shift them from Lot-4 to Lot-2 for introduction of intra-State eWayBill. Sh. Prakash Kumar, CEO, GSTN stated that the number of eWayBills being generated on the portal plateaued at around 9 lakh per day on weekdays and around 3.5 lakh per day on Sundays. He further stated that top-5 States accounted for 30% of the eWayBills that were generated and that since Tripura accounted for only 0.006% of the number of eWayBills, it can be shifted to Lot-2.

4.5.2. Ms. Smaraki Mahapatra, CCT, West Bengal stated that since it was decided in the 26th GST Council Meeting that intra-State eWayBill requirement would come into force latest by 01 June 2018, some flexibility had to be given to the States in the 4th lot to decide the date from which such requirement is made applicable.

4.5.3. Sh. Arun Goyal, Special Secretary, GST Council Secretariat observed that there were complaints of the eWayBill portal being down for some time. CEO, GSTN stated that the downtime was due to a system upgrade and that he suggested NIC to implement such changes only during 1AM to 3AM and that too after giving prior notice.

4.5.4. After discussion, GIC agreed to the following:

- i. To place Tripura in lot-2 for intra-State eWayBill system, instead of lot-4.
- ii. To advise NIC to implement system changes only during 1AM -3 AM after prior notice.

4.6. Agenda Item 5 – Clarification on issues related to furnishing of Bond/Letter of Undertaking for exports

4.6.1. Commissioner (GST Policy Wing), CBIC stated that Law Committee recommended that all LUTs may be deemed to be accepted unless rejected by the officers. He further stated that since the facility to reject was not made available to Model-2 States and that to view or reject was not yet made available to field officers of Model-1 States and CBIC, a circular No.40/2018 dated 06 April 2018 was issued urgently to clarify the procedure.

4.6.2. CCT, West Bengal stated that their officers were unable to perform ARN based search for LUTs. CEO, GSTN responded that role-mapping needed to be done in the system first and that the State of Andhra Pradesh was able to integrate their system through APIs and their officers were

able to view the LUTs. He further stated that the LUT rejection facility was in System Integration phase and it would be rolled-out in two to three weeks.

4.6.3. Commissioner (GST Policy Wing), CBIC stated that till such facility is made available to officers, all LUTs are to be accepted except when an applicant had a pending prosecution against him. He added that as no data on prosecution was available, it would be accepted on self-declaration basis.

4.6.4. CCT, Gujarat stated that their officers were unable to check EGMs from few Land Customs Stations. Sh. Sandeep M. Bhatnagar, DG(EP), CBEC responded that such cases may arise with non-EDI ports and that CBIC would find a solution to the problem. He further suggested that the hard copies of export reports can be verified in place of EGMs for such ports.

4.6.5. After discussion, GIC gave post-facto approval to issuance of the circular No.40/2018 dated 06 April 2018.

4.7. **Agenda Item 6 – Waiver of recording UINs on Invoices for refund purposes**

4.7.1. Commissioner (GST Policy Wing), CBIC stated that despite multiple press releases and advertisements, the Embassies and Consulates were facing an issue of UINs not being recorded on the bills for their purchases. CCT, West Bengal observed that it was a difficult provision to enforce. CEO, GSTN stated that many online companies were already implementing such facility and since the GSTIN and UIN were in similar format, it would not be too difficult to mandate such provision. CCT, West Bengal stated that the UIN holders may be asked to submit an undertaking instead.

4.7.2. After discussion, GIC agreed to give one-time waiver to UIN agencies for the quarters of July-Sep 2017, Oct-Dec 2017 and Jan-Mar 2018 for getting GST refunds on invoices even when they do not carry UINs. The authorized representatives of UIN holders would certify that they have actually procured the said goods or services. It was further agreed to give fresh press releases/advertisements stressing on recording of UINs.

4.7.3. Accordingly, Circular No. 43/2018 was issued on 13 April 2018.

4.8. **Agenda Item 7 – Circular to be issued for clarifying the procedure for interception of conveyances for inspection of goods in movement, and detention, release and confiscation of such goods and conveyances**

4.8.1 Commissioner (GST Policy Wing), CBIC proposed that a Circular may be issued to standardize the procedure for interception of conveyances across the States. CCT, Gujarat observed that when an order as per **FORM GST MOV-11** is issued, earlier order as per **FORM GST MOV-09** must stand cancelled. Sh. Sanjeev Kaushal, ACS, Haryana observed that cross-empowerment of officers is required to be done to enable such interceptions. Sh. Mahender Singh, Member (GST), CBIC replied that the provisions of cross-empowerment may be decided by the Law Committee and brought for consideration of the GIC in its next meeting.

4.8.2. Joint Commissioner, West Bengal stated that their officers were unable to verify the eWayBills which were not generated in their State. He further stated that such situation was leading to tax evasion. CEO, GSTN informed that facility is available for all Central and State officers to view all eWayBills. ACS, Haryana observed that the contents of circular should ideally be placed in the Rules. Commissioner (GST Policy Wing), CBIC clarified that when the forms are made

available, corresponding changes can be made in the Rules. He further stated that the Circular with *pari materia* changes was needed to be issued by all the States as well.

4.8.3. After discussion, GIC approved the following:

- i. Issuance of Circular.
- ii. Similar circular to be issued by States with *pari materia* changes. The suggested draft would be sent by West Bengal to the Council's Secretariat for circulation to the States.
- iii. NIC to make available the viewing of all eWayBills to all Central and State officers, if the facility is not available at present.

4.8.4. Accordingly, Circular No. 41/2018 was issued on 13 April 2018.

4.9. **Agenda Item 8 – Circular to be issued for clarifying the procedure for recovery of arrears under the existing law and reversal of inadmissible input tax credit**

4.9.1. Commissioner (GST Policy Wing), CBIC proposed that in view of representations seeking clarification on the provisions of the Central Goods and Services Tax Act, 2017 relating to recovery of arrears of duties of Central Excise / Service Tax and CENVAT credit, a Circular may be issued clarifying the procedure.

4.9.2. CCT, Gujarat observed that Para 2 (ii) of the proposed Circular may be amended to include a reference to Section 74 of the CGST Act.

4.9.3. After discussion, GIC approved the issuance of the Circular. Similar circular to be issued by States with *pari materia* changes. The suggested draft would be sent by Gujarat to the Council's Secretariat for circulation to the States.

4.9.4. Accordingly, Circular No. 42/2018 was issued on 13 April 2018.

4.10. **Agenda Item 9 – Reversal of late fee paid by taxpayers on filing of FORM GSTR-3B due to delayed filing of FORM GST TRAN- 1**

4.10.1. Commissioner (GST Policy Wing), CBIC stated that in the 15th meeting of GIC held on 26.03.2018, it was recommended that the taxpayers, who could not submit **FORM GST TRAN-1** due to technical errors, should be allowed to authenticate and file the same by 30.04.2018 and that those taxpayers who were not able to file **FORM GSTR-3B** due to non-filing of **FORM GST TRAN-1**, shall be allowed to file the same by 31.05.2018. He informed that the GSTN has sent a proposal to waive late fee on delayed filing of **FORM GSTR-3B** in such cases. He further stated that to enable such waiver through notification, a class of taxpayers has to be defined for the 17,573 such identified cases. CEO, GSTN replied that the formulation of such definition and the list of 17,573 taxpayers would be prepared by GSTN.

4.10.2. Special Secretary, GST Council observed that such waiver/reversal of the late fee may be conditional upon the taxpayers authenticating and filing **FORM GST TRAN-1** and associated **FORM GSTR-3B** by 30.04.2018 and 31.05.2018 respectively.

4.10.3. After discussion, GIC approved the following:

- i. Waiver of late fee on such delayed filing of **FORM GSTR-3B** of taxpayers who could not submit **FORM GST TRAN-1** due to technical errors.
- ii. Such waiver shall be conditional upon the taxpayers authenticating and filing **FORM GST TRAN-1** and associated **FORM GSTR-3B** by 30.04.2018 and 31.05.2018 respectively.

iii. GSTN shall prepare a formulation defining 17,573 taxpayers to enable preparing of notification and also send the list of 17,573 taxpayers to the GST Policy Wing.

5. The decisions of the GIC are placed for the information of the Council.

Agenda Item 4: Review of Revenue position

In the GST Council meeting held on 10th March, 2018, revenue collection figures up to 28th February, 2018 were placed before the Council. The Table 1 below gives the details of revenue collected as Central Goods and Services Tax (CGST), State Goods and Services Tax (SGST) and Integrated Goods and Services Tax (IGST) during FY 2017-18 including the details of funds transferred to the Centre and States on account of settlement of funds.

Table 1*: GST revenue for FY 2017-18

	Receipts	Funds transferred due to settlement	Net revenue after settlement
CGST	118,876	86,275	205,152
SGST	171,803	119,663	291,466
IGST	387,356	205,938	181,418
Cess	62,614		62,614
Total			740,650

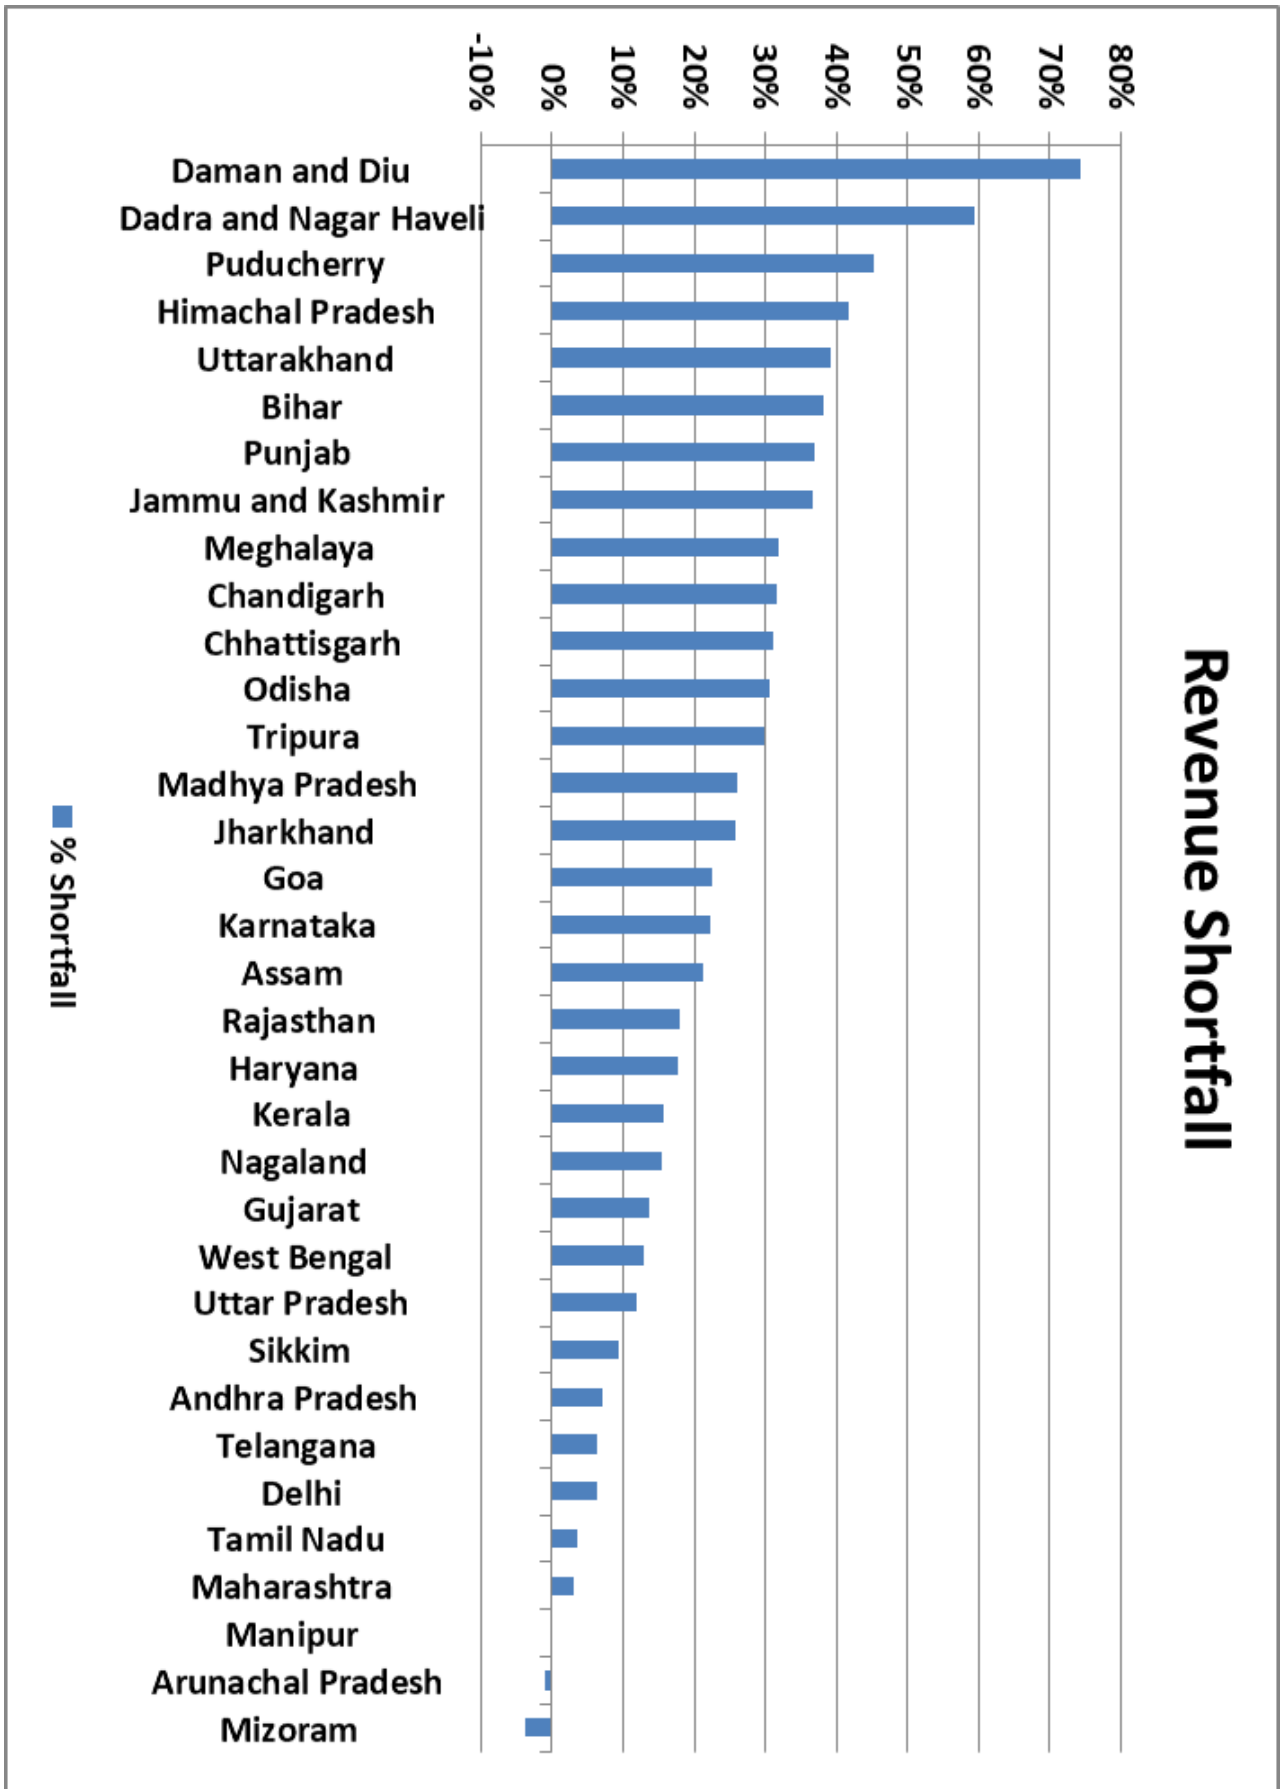

*Figures rounded to nearest whole number

- Hence forth, revenue collection figures – CGST, IGST, SGST and Cess will be considered for the entire month on actual cash collection basis and published on 1st of next month.
- The details of State-wise revenue shortfall/excess against revenue to be protected including status of return filing state-wise are discussed below:

Revenue Trends

The details of state-wise revenue to be protected and percentage revenue shortfall of GST collections since August 2017 are given below:

S. No.	State	Protected Revenue	Average Shortfall	% Shortfall
1	Daman and Diu	70	52	74%
2	Dadra and Nagar Haveli	83	49	59%
3	Puducherry	119	54	45%
4	Himachal Pradesh	394	164	42%
5	Uttarakhand	537	211	39%
6	Bihar	1367	524	38%
7	Punjab	1567	580	37%
8	Jammu and Kashmir	516	190	37%
9	Meghalaya	69	22	32%
10	Chandigarh	158	50	32%
11	Chhattisgarh	797	248	31%
12	Odisha	1194	365	31%
13	Tripura	85	25	30%
14	Madhya Pradesh	1660	433	26%
15	Jharkhand	694	179	26%
16	Goa	236	53	23%
17	Karnataka	3914	876	22%
18	Assam	648	139	21%
19	Rajasthan	1858	335	18%

Return Filing Analysis

Return Period	Required to file	Till due date		Cumulative	
		Returns	%	Returns	%
July '17	6647581	3834877	57.69%	6388549	96.10%
Aug '17	7370102	2725183	36.98%	6851732	92.97%
Sep '17	7823806	3934256	50.29%	7109143	90.87%
Oct '17	7721075	4368711	56.58%	6777440	87.78%
Nov '17	7957204	4913065	61.74%	6765603	85.02%
Dec '17	8122425	5426278	66.81%	6747887	83.08%
Jan '18	8322611	5394018	64.81%	6694387	80.44%
Feb '18	8527127	5451004	63.93%	6562362	76.96%
Mar '18	8715163	5458728	62.63%	5630683	64.61%

- From the above table, it is inferred that on average, about 58% of the taxpayers are filing their return within due date.
- The number of returns to be filed has increased over a period of time. There has been a proportionate increase in the number of returns filed.

Trends in return filing

Agenda Item 5: Clarification regarding applicability of Integrated Goods and Services Tax on goods supplied while being deposited in a warehouse

Goods imported into India are subjected to customs duties and integrated tax under sub-section (7) of section 3 of the Customs Tariff Act, 1975 (hereafter referred to as “CTA”). The importer has the option to defer the payment of duty on such imports by storing the goods in the Customs bonded warehouse. During the storage of imported goods in warehouse, the importer has the option to supply such goods to any other person even before clearance from the bonded warehouse. It has been clarified vide Circular No. 46/2017-Customs dated 24.11.2017 that integrated tax will be payable on such supplies and buyer will also pay the deferred customs duty at the time of clearance of goods from the warehouse. It has been represented that in this scenario, the buyer is being saddled with double taxation.

2. Kind attention is drawn towards sub-section (2) of section 7 of the Integrated Goods and Services Tax Act, 2017 (hereinafter referred to as the “IGST Act”) whereby supply of goods imported into the territory of India, till they cross the customs frontiers of India, is treated as a supply of goods in the course of inter-State trade or commerce. Further, proviso to sub-section (1) of section 5 of the IGST Act provides that integrated tax on goods imported into India would be levied and collected in accordance with the provisions of section 3 of the Customs Tariff Act, 1975 (hereinafter referred to as the “CTA”). Thus, in case of supply of such warehoused goods the point of levy would be the point at which duty is collected under section 12 of the Customs Act, 1962 (hereinafter referred to as the “Customs Act”) which is at the time of clearance of goods under section 68 of the Customs Act.

3. Furthermore, sub-section (8A) has been inserted with effect from 31st March, 2018 in section 3 of the CTA vide Section 102 of the Finance Act, 2018 so as to provide that the valuation for the purpose of levy of integrated tax on imported goods deposited in a warehouse, at the time of clearance for home consumption, would be either the transaction value or value as per sub-section (8) of section 3 of the CTA (i.e. valuation done at the time of filing into-bond bill of entry), whichever is higher. It is significant as this amendment takes care of any revenue concerns that might arise on account of non-capturing of value addition happening when the warehoused goods are sold before clearance from warehouse.

4. It is pertinent to mention here that GST Council in its 25th Meeting held on 18th January 2018, has given an in-principle approval to declare the supply of warehoused goods within the Customs bonded warehouse as ‘no supply’ under Schedule III of the CGST Act, 2017 so as to ensure that no integrated tax is paid at the time of supply of warehoused goods by the importer to the buyer. Since the amendment of the law would take time, it is proposed that such intention/ decision of the GST Council may be effected through a circular.

5. In view of the above, it is proposed that Circular No. 46/2017-Customs dated 24.11.2017 may be rescinded and a fresh circular may be issued clarifying that supply of warehoused goods before their clearance from the warehouse would not be subject to levy of integrated tax and the same would be collected only when the warehoused goods are cleared for home consumption from the customs bonded warehouse. This clarification would be applicable from 1st of April, 2018. Accordingly, a draft circular as at **Annexure-I** is placed for approval of the GST Council.

F. NO. CBEC/20/16/03/2017- GST
Government of India
Ministry of Finance
Department of Revenue
Central Board of Indirect Taxes and Customs
GST Policy Wing

New Delhi, Dated the __May, 2018

To,

The Principal Chief Commissioners / Chief Commissioners / Principal Commissioners /
Commissioners of Central Tax (All) / The Principal Directors General / Directors General (All)

Madam/Sir,

**Subject: Applicability of Integrated Goods and Services Tax (integrated tax) on goods
supplied while being deposited in a warehouse-reg.**

Attention is invited to Circular No. 46/2017-Customs dated 24.11.2017 whereby
applicability of integrated tax on goods transferred / sold while being deposited in a warehouse
was clarified.

2. Various references have been received in the Board on the captioned issue. The issue
has been re-examined in the Board.

3. It is seen that “Transfer / sale of goods while being deposited in Customs bonded
warehouse” is a common trade practice whereby the importer files an into-bond bill of entry
and stores the goods in a customs bonded warehouse and thereafter supplies such goods to
another person who then files an ex-bond bill of entry for clearing the said goods from the
bonded warehouse for home consumption.

4. It may be noted that as per sub-section (2) of section 7 of the Integrated Goods and
Services Tax Act, 2017 (hereinafter referred to as the “IGST Act”) supply of goods imported
into the territory of India, till they cross the customs frontiers of India, is treated as a supply of
goods in the course of inter-State trade or commerce. Further, proviso to sub-section (1) of
section 5 of the IGST Act provides that integrated tax on goods imported into India would be

levied and collected in accordance with the provisions of section 3 of the Customs Tariff Act, 1975 (hereinafter referred to as the “CTA”). Thus, in case of supply of such warehoused goods, the point of levy would be the point at which duty is collected under section 12 of the Customs Act, 1962 (hereinafter referred to as the “Customs Act”) which is at the time of clearance of goods under section 68 of the Customs Act.

5. It may also be noted that sub-section (8A) has been inserted with effect from 31st March, 2018 in section 3 of the CTA vide Section 102 of the Finance Act, 2018 so as to provide that the valuation for the purpose of levy of integrated tax on warehoused imported goods at the time of clearance for home consumption would be either the transaction value or value as per sub-section (8) of section 3 of the CTA (i.e. valuation done at the time of filing into-bond bill of entry), whichever is higher.

6. It is clarified that integrated tax shall be levied and collected at the time of final clearance of goods for home consumption i.e. at the time of filing ex-bond bill of entry and value addition accruing at each stage of supply shall form part of the value on which integrated tax would be payable at the time of clearance from the warehouse. In other words, the supply of warehoused goods before their clearance from warehouse would not be subject to levy of integrated tax and same would be collected only when the warehoused goods are cleared for home consumption from the customs bonded warehouse.

7. This circular would be applicable for supply of goods while being deposited in a warehouse on or after 01st of April, 2018.

8. It is requested that suitable trade notices may be issued to publicize the contents of this circular.

9. Difficulty, if any, in implementation of the above instructions may please be brought to the notice of the Board. Hindi version would follow.

Agenda item 6: Change in the shareholding pattern of GSTN

Goods and Services Tax Network (GSTN) is a Special Purpose Vehicle incorporated as a company with 49% Government equity, shared equally amongst Central Government and all State Governments put together. 51% of the equity is held by five non-Government companies. GSTN has been mandated to develop and maintain the common IT infrastructure for GST. It maintains the common portal for the front-end activities of registration, return filing, payment of taxes and refunds. In addition, it has also been mandated to develop the back-end processes for certain States.

2. Background of GSTN:

2.1. In July, 2010, an Empowered Group on IT infrastructure for GST (EG) under the Chairmanship of Shri Nandan Nilekani (Chairman, UIDAI) was set up by the Union Finance Minister in consultation with the Empowered Committee of State Finance Ministers (EC). The EG was mandated, inter alia, to recommend an appropriate structure and roadmap to creation of the Goods and Services Tax Network.

2.2. The Empowered Committee of State Finance Ministers (EC) in concurrence with the Government of India approved the creation of a Special Purpose Vehicle to be called the GSTN-SPV based on the recommendation of the EG. The Cabinet, in its meeting held on 12th April, 2012, also approved the setting up of the GSTN-SPV.

2.3. The Goods and Services Tax Network - Special Purpose Vehicle (GSTN-SPV) was created as a private limited, not-for-profit company under Section 25 of the Companies Act, 1956 (Section 8 of the Companies Act, 2013) by Govt. of India on 28th March, 2013 with an objective to provide shared IT infrastructure and services to Centre and States Governments, tax payers and other stakeholders for implementation of Goods and Services Tax (GST) in the country.

3. Equity in GSTN:

3.1. It was appreciated by the Central Government as well as the EC that the IT infrastructure of GST system would be fairly complex and would be serving Central Government and all State Governments. The Common Portal, as envisaged by the EG would be a one-stop point of contact between the tax payer and multiple tax administrations.

Accordingly, Committee on Non Plan Expenditure (CNE) Note circulated in February, 2012, the GSTN-SPV should be incorporated as a Non-Government company in which the Central Government and State Government should hold 24.5% equity respectively. NSDL should hold 21% equity and other private institutions should hold not more than 10% equity from the remaining 30% equity. The GSTN-SPV should have an equity share capital base of Rs. 10 crores.

3.2. At present, the authorized share capital of the Company is Rs. 10 crores only divided into one crore equity shares of Rs. 10 each and the shareholding position of the GSTN is as under:

Sl. No.	Name of the entities	% of total shares
1.	Group A – Central Government	24.5%
2.	Group B – State Governments and EC* collectively	24.5%
3.	Group C – Non-governmental Institutions collectively	
	LIC Housing Finance Ltd	11%
	Housing Dev. Finance Corporation Ltd	10%
	HDFC Bank Ltd.	10%
	ICICI Bank Ltd.	10%

	NSE Strategic Investment Co. Ltd.	10%	
--	-----------------------------------	-----	--

* It has been decided in the 25th GST Council meeting held on 18th January, 2018 that the equity shares of Empowered Committee of State Finance Ministers (80,000 shares) shall be transferred to Govt. of Telangana.

The current equity holding in the GSTN SPV is as per **Annexure - 1**.

4. Financial Model of GSTN:

4.1. Empowered Committee and the Central Government examined various financial models for implementation of project including recovering the project cost from tax payers. However, it was finally decided that the total cost of project shall be equally borne by Centre and States on a pay-as-you-go basis. Accordingly, Centre and States will be paying GSTN over a period of time the expenditure incurred by GSTN on development and upkeep of the IT infrastructure required for GST.

4.2. Provision of non-recurring grant-in-aid towards expenditure for the initial setting up and functioning of the SPV for a three-year period after incorporation was made by Govt. of India.

4.3. Central Government has released grants-in-aid of Rs. 153.04 crore to GSTN, which is shown in the table below.

(Amount in Rs. Crore)

Financial Year	Grants-in-aid released
2012-13	1.00
2013-14	2.78
2014-15	19.26
2015-16	130.00*
TOTAL	153.04

* Including Rs. 9.07 crore surrendered/ refunded by the GSTN.

5. Strategic Control over GSTN:

5.1. In view of the sensitivity of the role of GSTN and the information that would be available with it, the EC also considered the issue of strategic control of Government over GSTN. Accordingly, the strategic control over GSTN has been put in place through various means as follows:

(a) **Strategic control through Board of Directors (BOD):** The Articles of Association (AoA) of GSTN provide that matters of strategic importance will be decided by the Board and that the Chairman will have casting/second vote where Directors are equally divided over any issue in BOD meeting. Out of total 14 Directors allowed in GSTN at a time under the AoA, seven (7) (including the Chairman) are nominees of Central & State Governments. The remaining seven (7) Directors are nominated as under:

- (i) Private shareholders having 51% equity can nominate only 3 Directors.
- (ii) The person who holds the position of Chief Executive Officer (CEO) of the Company shall be one of the Director.
- (iii) The above Directors (in Article 42-44) may, by majority, nominate up to three (3) persons of eminence having technical, legal, accountancy or any other professional qualification as Directors.

The Board has two Directors from State Governments to be decided on rotation basis by the GST Council. The Board also has Additional Secretary, Department of Revenue and the Special Secretary of the GST Council as its Directors. In addition, the Financial Advisor, of the Ministry of Finance is also a Director on the Board. The current composition of the Board is as follows:

- I. Dr Ajay Bhushan Pandey, Chairman
- II. Shri Prakash Kumar, CEO GSTN
- III. Shri G. C. Murmu, Addl Secretary (Revenue), Department of Revenue, Ministry of Finance,
- IV. Shri Arun Goyal, Special Secretary, GST Council,
- V. Shri S K Panda, Special Secretary & Member (IT), CBEC,
- VI. Smt. Meera Swarup, JS & FA, Department of Revenue, Ministry of Finance,
- VII. Shri Arvin Aggarwal, Additional Chief Secretary, Finance Department, Govt. of Gujarat, (Appointment approved but not yet inducted)
- VIII. Shri M. Nagaraju, Principal Secretary, Government of Tripura. (Appointment approved but not yet inducted)
- IX. Shri Nitin K. Jage, General Manager (Taxation) & Company Secretary, LIC Housing Finance Ltd.
- X. Shri Bhavesh C. Zaveri, Country Head, Wholesale Banking Operations & Cash Management Products, HDFC Bank Ltd,
- XI. Shri Ajay Kumar Gupta, Senior General Manger, ICICI Bank Ltd.,
- XII. Shri R. Chandrashekhar, President, NASSCOM
- XIII. Shri Anand Sinha, Retired Deputy Governor, RBI

- (b) **Strategic Control through Special Resolution:** The AoA of GSTN provide that certain matters of strategic importance shall be decided only through Special Resolution, i.e. three fourth (3/4) of the shareholders voting on the resolution shall vote in favour of such matters. Government's 49% shareholding will ensure that it retains effective control over such matters.
- (c) **Appointment of Chairman:** The Chairman of the Company will be nominated through a joint approval mechanism of Central and State Governments. This ensures that the overall supervision of the Company is through a person appointed with consensus between Centre and States.
- (d) **Overall control and supervision of GST Council:** With respect to its functioning and deliverables, the GSTN works as per the overall direction of the GST Council. The Council closely reviews the working of the GSTN on a regular basis to ensure that the tax payers' interests are properly taken care of.
- (e) **Group of Ministers on IT:** The GST Council noted that IT issues are the most critical with respect to smooth functioning of GST. The GST Council has constituted a Group of Ministers (GoM) on IT to regularly review the functioning of GSTN and the GST common portal. The GoM is chaired by the Deputy Chief Minister of Bihar, Shri Sushil Modi.
- (f) **Audit by Comptroller and Auditor General of India:** It has been unambiguously held that GSTN is a deemed Government Company and it is subject to CAG Audit. CAG is mandated to conduct audit of GSTN not only on the basis of the provisions of the Counter Guarantee-cum Guarantee Fee Agreement but on the basis of provisions contained in Section 19 of the CAG's Duties, Powers and Conditions of Services Act, 1971 (DPC Act) read with sub-sections (5) and (7) of the Companies Act, 2013.

Accordingly, the C&AG has already conducted the expenditure audit of GSTN for FY 2013-14, 2014-15 and 2015-16.

- (g) **Applicability of General Financial Rules to GSTN:** Since GSTN is substantially funded by the Government, applicability of the provisions of General Financial Rules, 2017 (GFR) of Government of India were examined and along with the issue of audit by CAG. Government of India substituted the clauses 2.8 and 2.9 of the Counter Guarantee cum Guarantee Fee Agreement signed between GoI and GSTN as under:

Clause 2.8 “That GSTN shall conduct business as per Financial Rules approved by the Government of India.”

Clause 2.9 “That GSTN shall be subject to audit by Office of the Comptroller & Auditor General of India.”

Based on this stand taken by the Government, GSTN has been asked to frame and adopt Procurement Rules after taking approval of the Government. Although these rules are still in draft stage, they are on the same lines as those applicable to public sector procurements.

6. Personnel Policy:

6.1. GSTN enjoys a flexible personnel policy. The staff of GSTN has been either hired from the market or has been taken on deputation from Central/State Governments. GSTN has a sanctioned strength of 99 out of which 23 are supposed to be on deputation, 69 are expected to be taken from the market and 7 can be taken from either source.

6.2. The establishment expenditure of GSTN over last three years is as per the following table:

(Amount in Rs. Crore)

Year	Expenditure
2015-16	7.85
2016-17	12.79
2017-18	16.87

6.3. While GSTN does not handle any development work, they handle a good amount of technical work in form of project conceptualization, creation of RFP and selection of vendor, defining and designing technology architecture and ensuring adherence to the same, stakeholders’ consultation on user requirements, finalization of Business Requirement Document (BRD), development of SRS and its finalization based on BRD, evaluation of delivery of use cases and User Acceptance Test (UAT), ensuring integrated rollout and handling all stakeholder facing rollout issues, managing post production support by MSPs (Managed Service Provider), management of SLAs and payment to the vendors, defining Change Requests (CRs) based on changes in law/rules/procedures and getting the same implemented, evaluation of CRs and its costing.

6.4. GSTN heavily depends on market for its talent which is evident from the nature of its work. Since the IT sector requires relatively higher level of salaries to attract and retain qualified and experienced personnel, GSTN has adopted a market-led pay structure and also enjoys a flexible policy that allows it to ensure high quality of personnel.

7. **Need for Change in the ownership structure of GSTN:**

7.1. It is clear that even in the current ownership structure with 49% Government equity, shared equally amongst Central Government and all State Governments put together and 51% of the equity held by five non-Government companies, GSTN is under strategic control of government. However, majority of the GST processes including registration, filing of returns payment of taxes, processing of refunds is IT driven. GSTN is handling large scale invoice level data of lakhs of business entities including data relating to exports and imports. Considering the nature of 'state' function performed by GSTN, it will be appropriate that GSTN is converted into a fully owned government Company.

8. **Existing Articles of Association of GSTN and amendment thereof:**

8.1. Existing Article 6 of the Article of Association of GSTN reads as follows:

“The authorized share capital of the Company shall be Rs.10,00,00,000/- (Rs. Ten (10) Crores only) divided into 1,00,00,000 (One Crore) equity shares of Rs.10/- (Rs. Ten only) each which can be increased or reduced subject to the provisions of the Act.

The paid-up share capital of the Company shall at all times be owned and maintained in the proportion mentioned in Table below:

Sl. No.	Name of the entities	Percentage of paid up capital
1.	Group A – Central Government	24.5%
2.	Group B – State Governments and the EC collectively	24.5%
3.	Group C – Non-Government Institution collectively	51%

The percentage of holdings mentioned against each Group in Table above shall not exceed the specific percentage against their respective Group.

In group C in table above, no individual non -Government Institution shall hold more than 10% equity in the company except that one Non-Government Institution may hold a maximum of 21% equity in the Company.”

8.2. Section 14 of the Companies Act 2013, provides that Articles of Association can be altered by a special resolution. Further, Section 8(4) (i) provides that Company with charitable objects (Non- Profit Company) shall not alter the provisions of its memorandum or articles except with the previous approval of the Central Government. Thus, the Articles of Association can be amended with the approval of the Central Government after a special resolution by the shareholders.

9. **Impact of change in the ownership structure of GSTN:**

9.1. It is clear that even in the current structure, as far as strategic control, rules for financial transactions and audit by CAG is concerned, there will be no major impact if the ownership structure of GSTN is changed and complete ownership is taken over by the Government. Central and State Governments will have to acquire 51% shares held by Group C shareholders that would have an implication of Rs. 5.1 crore at par value of the equity, half for Central Government and half for all States combined. The private shareholders of GSTN have been consulted informally and they have given their informal No Objection to this arrangement. The restructured GSTN with 100% government ownership shall have equity structure between the Centre (50%) and the States (50%) as per attached **Annexure - 2**.

9.2. However, the main impact will be in terms of the personnel policy being adopted by GSTN. Since GSTN will have to hire highly qualified technical manpower at market rates, they will have to hire them as consultants after following the procedure laid down for such procurements. This may also have an impact on the existing staff as they may not be able to continue as regular employees of GSTN at their current level of salaries and their services. Therefore, the employees (except those on deputation) will have to be allowed to work on contract on the same terms and conditions till the rules relating to recruitment and service conditions etc are formulated and approved by the competent authority. Since equity of GSTN will be held by the Central and State Governments in equal proportion, it may not be possible to subject GSTN to rules of usual service condition, remuneration, compensation etc., of either Central Government or a State Government. Therefore, the terms and conditions of contract, employments etc., will be required to be determined by GSTN subject to general guidance provided by GST Council from time to time.

10. **Proposal:**

It is therefore submitted to the Council for in principle consideration of the following;

1. Acquisition of entire 51% of equity held by the Non-Governmental Institutions in GSTN equally by the Centre and the States governments and allow GSTN Board to initiate process for acquisition of equity held by the private Companies.
2. Allow GSTN change the composition of the Board by inducting four Directors each from the Centre and the States and three other independent directors to be nominated by the Board of Directors and one Chairman and the CEO. Thus the total number of Directors would be 13.
3. Review Article of Association and Bye laws of GSTN by GSTN Board and incorporate suitable changes as per the provisions of the Companies Act, 2013. Restructured GSTN will take over the assets and liabilities of the Company and inform lenders accordingly.
4. Since the current staff are hired on market driven salaries as regular employees of GSTN, their continuation at the current terms and conditions may not be possible after change in the ownership structure of GSTN. Therefore, for ensuring continuity of operation without any disruption, existing regular employees may be allowed to be continued for a period up to 5 years on contract basis on the same terms and conditions on which they were appointed. During this period of five years, GSTN shall also be given the flexibility of hiring people through contract on the terms and conditions similar to those used by GSTN earlier while hiring regular employees. The existing employees on deputation may be continued on the same terms and conditions till the completion of their tenure. Also, for the next five years, new employees on deputation will be continued to be hired on the terms and conditions similar to those earlier used by GSTN.
5. Flexible hiring and appropriate remuneration policy may be evolved by GSTN considering criticality of the IT manpower, prevailing market compensation etc and placed before the GST Council for its approval in due course.
6. Allow continuation of existing mechanism of payment of the operating charges to GSTN through user charges of restructured GSTN by CBIC and the States.

Agenda Item 7: Incentivising Digital Payments in GST regime (carry forward item from the 25th Council Meeting)

To incentivise digital transaction, it is proposed to provide a concession of 2% in GST rate on B2C supplies, for which payment is made through digital mode [1% each from applicable CGST and SGST rates, if the applicable GST rate is 3% or more] subject to a ceiling of Rs. 100 per transaction. This effectively means that applied rate of GST for such transactions will be 2% lower than the otherwise applicable GST rate, though subject to a ceiling of Rs. 100 per transaction for such incentive. This scheme, however, would not be available to registered persons paying tax under the composition scheme.

2. With this incentive, consumer will be offered two prices; one with normal GST rates for purchases made through cash payment and the other with 2% lower GST rate for digital payments. As a result, the consumer will see visible benefits of making payments [for supplies received by him] through digital mode, in terms of reduction in tax amount payable.

3. For example, if the GST rate applicable to supply a particular goods/service is 18%, then B2C supply of such goods, where payment made through digital mode will be 16%, subject to a maximum GST concession of Rs. 100 per transactions.

Illustration:

Value of goods/service= Rs 5000

Tax payable if payment made in cash = Rs 900 [18% of Rs. 5000]

Tax payable if payment made digitally = Rs 800 [16% of Rs. 5000]

Upfront tax incentive to the customer = Rs 100.

Estimated revenue implication [based on information provided by MeitY]

4. In 2016-17, the number of digital transactions was 1076 crore. Average value per transaction (based on debit and credit card transaction) was Rs 1833. Out of this, transactions below Rs 1000 were 16%, between Rs 1000 and Rs 2000 were 14%, and above Rs 2000 were 70%.

4.1. In 2017-18, the estimated number of digital transaction for the financial year is 1800 crore. Till October 2017 this number was 1000 crore.

4.2. Based on these numbers (taking annual number of digital transaction as 1800 crore), the revenue implication of the proposal is estimated to be as follows:

	Tax relief (2%)	
	1500	1800
Taking Average size (Rs)		
% of transaction getting benefit	Tax Implication (Rs Crore)	
20%	10800	12960
30%	16200	19440
40%	21600	25920

5. The loss in tax revenue may however be recovered to certain extent through better compliance. It would further encourage digital payment and consumer would seek these services from merchants.

6. This proposal was discussed by the Fitment Committee on 30 October, 2017, but the Committee could not arrive at consensus on the issue.

7. It is proposed that the Council may accord in principle approval to this proposal. Further the GIC may be authorised to approve the changes in the CGST/SGST/UTGST Rules, as recommended by the Law Committee, in order to implement this proposal.

ADDENDUM TO AGENDA NOTE

Briefly stated, with an objective to incentivise digital transactions, an Agenda Note was circulated for consideration by the GST Council in its 23rd Meeting (held on 10.11.2017). The said Agenda Note proposed for providing a concession of 2% in GST rate (where the GST rate was 3% or more) on B2C supplies, for which payment is made through digital mode (1% each from applicable CGST and SGST rates, if the applicable GST rate is 3% or more) subject to a ceiling of Rs. 100 per transaction, interalia, on the following grounds:

- (a) With this incentive, consumer will be offered two prices; one with normal GST rates for purchases made through cash payment and the other with 2% lower GST rate for digital payments.
- (b) The consumer will see visible benefits of making payments (for supplies received by him) through digital mode, in terms of reduction in tax amount payable.

The said Agenda Note also stated that this concession would not be available to supplies made by registered persons paying tax under the Composition Scheme.

2. The Agenda Note sought in principle approval of the Council for the above proposal, along with authorisation to the GST Implementation Committee (GIC) to approve changes in the CGST/SGST/UTGST Rules necessary for implementing this proposal.

3. Taking the annual number of digital transaction as 1800 crore (which included all modes of digital transactions), the revenue implication of the proposal was estimated as under:

	Tax relief (2%)	
Taking average transaction size (Rs)	1500	1800
% of transaction getting benefit	Tax Implication (Rs Crore)	
20%	10800	12960
30%	16200	19440
40%	21600	25920

4. However, due to paucity of time the said Agenda Note was not discussed by the GST Council in its 23rd meeting (held on 10.11.2017) and in 25th meeting (held on 18.01.2018).

5. As mentioned above, concession of 2% in GST rate on B2C supplies, apart from providing visible upfront benefits of making digital payments and thereby incentivising digital payment, will also result in-

- a) better compliance;
- b) gradual formalisation of economy; and
- c) reduction in cash transaction vis-à-vis GDP

6. Meanwhile, the full year granular data, mode wise, on digital payments for 2017-18 was obtained from MeitY and the details are as under:

S. No.	Modes	Volume (17-18) [in Cr]	Value (17-18) [In Lakh Cr]
1	NACH (National Automated Clearing House)	237	9.7

2	IMPS (Immediate Payment Service)	101	8.9
3	UPI + BHIM+USSD [Unified Payments Interface, Bharat Interface for Money, Unstructured Supplementary Service Data)	92	1.1
4	RuPay (POS)	46	0.5
5	RuPay (eCom)	20	0.2
6	AEPS Total (Aadhaar Enabled Payment System)	98	0.3
7	BBPS (Bharat Bill Payment System)	3	0.0
8	NETC (National Electronic Toll Collection)	13	0.0
	Sub Total (Source : NPCI)	610	20.7
9	Debit Card (excluding RuPay)	262	3.9
10	Credit Card	138	4.5
11	NEFT	189	175.1
12	M-Wallet	301	1.1
13	RTGS	12	1500.9
14	PPC	44	0.3
	Sub Total (RBI)	946	1686
15	Closed Loop	111	0.02
16	Internet Banking	143	99.3
17	Mobile Banking	62	2.7
18	Others	120	21.5
	Sub Total (BANK)	325	123.5
	Total	1992	1830

Source: MeitY

7. Payment modes namely, RTGS, NEFT, IMPS (Immediate Payment Service), NACH (National Automated Clearing House), NETC (National Electronic Toll Collection) and Closed Loop may not in general be used for procuring goods and services. While, the remaining modes, namely, UPI/BHIM/USSD, RuPay, AEPS, BBPS, Debit Card, Credit Card, m-wallet, PPC, internet banking, mobile banking and other banking modes are generally used for procuring taxable goods and services. The volume and value of transactions for these modes and average size of transactions is as below:

	Without internet banking and other transactions [S. No. 18 of the Table above]	With internet banking and other transactions [S. No. 18 of the Table above]
Total no of transactions	1066 crore	1329 crore
Value of transactions (Rs.)	14.6 lakh crore	135.4 lakh crore
Average size of transaction (Rs.)	1400	10158

8. Based on above numbers, the revenue implication of the proposal [taking the average size of the transaction as Rs. 900, Rs. 1200 and Rs. 1400] is re-estimated as under:

	Tax relief (2%)		
Taking Average size on which concession is allowed (Rs)	900	1200	1400
A. Without internet banking and other transactions			

[No. of transactions being 1066 crore]			
% of transaction getting benefit	Tax Implication (Rs Crore)		
20%	3838	5117	5970
30%	5756	7675	8954
40%	7675	10,234	11,939
B. With internet banking and other transactions			
[No. of transactions being 1329 crore]			
% of transaction getting benefit	Tax Implication (Rs Crore)		
20%	4784	6379	7442
30%	7177	9569	11,164
40%	9569	12,758	14,885

*Formula for revenue implication = No. of transactions X % of transaction getting benefit X Ticket Size X 2/ 100

However, the above revenue implication may vary, as the RTGS, NEFT, IMPS and NACH modes of digital payments may occasionally, be used for payment for procuring taxable goods and services.

9. In the above background, the Council may consider providing a concession of 2% in GST rate [where the GST rate was 3% or more] on B2C supplies, for which payment is made through digital mode [1% each from applicable CGST and SGST rates, if the applicable GST rate is 3% or more] subject to a ceiling of Rs. 100 per transaction. This concession would, however, not be available to supplies made by registered persons paying tax under the Composition Scheme.

10. The exact modalities for providing the concession of 2% in GST would be finalized along with the new GST return. The proposed concession in GST will be made effective from when the new GST return will be introduced.

Agenda Item 8: Imposition of Cess on Sugar under GST and reduction of GST rate on Ethanol

The Department of Food and Public Distribution, Ministry of Consumer Affairs, Food & Public Distribution has recommended levy of a cess over and above 5% GST on sugar to create and maintain a separate fund for the purpose of Government intervention in the interest of farmers and consumers.

2.1 Prior to introduction of GST, a cess was levied and collected under the Sugar Cess Act, 1982, as duty of excise, for the purpose of the Sugar Development Fund (SDF). Applicable rates of the cess and revenue collection therefrom, during last five financial years, were as under:

Financial Year	Sugar Cess	
	Rate/quintal	Amount (Rs Crore)
2013-14	24	565
2014-15	24	565
2015-16	24/124 ¹	1008
2016-17	124	2881

2.2 The Sugar Development Fund Act, 1982 provided it shall be applied for:

- a) making loans for:
 - (i) facilitating the rehabilitation and modernization of any sugar factory and development of sugarcane in its area;
 - (ii) bagasse co-generation power projects;
 - (iii) for production of ethanol
- b) making grants for the purpose of research aimed at development of sugar industry;
- c) defraying expenditure for the purposes of building up buffer stock of sugar with a view of stabilising price of sugar;
- d) defraying expenditure to a sugar factory on internal transport and freight charges on export shipment of sugar with a view to promoting its export;
- e) defraying expenditure for the purpose of financial assistance to sugar factories towards interest on loans in terms of any scheme approved by the Government;
- f) defraying any other expenditure for the purpose of the Act.

2.3 Through Taxation Laws Amendment Act, 2017 various cesses including sugar cess [being a duty of excise on manufacture, which is subsumed in GST] were abolished with effect from 1st July 2017.

2.4 Thus, at present no separate fund is available which can be utilised for effecting interventions for the welfare of the sector in general and farmers in particular.

3.1 **Nature of Sugar Industry in India:** It is estimated that sugar industry affects rural livelihood of about 50 million sugarcane farmers and around 5 lakh workers employed directly in sugar mills. It also provides additional indirect employment in various ancillary activities relating to transport, trade servicing of machinery and supply of agriculture inputs.

¹ Rate of cess increased from Rs. 24 per quintal to Rs. 124 per quintal, with effect from 1st February, 2016

3.2 India is the second largest producer of sugar in the world, after Brazil. Further, India is also the largest consumer of sugar. The present annual turnover of the Indian sugar industry is about Rs.80,000 crores. As on 31.07.2017, there are 732 installed sugar factories in the country, with production capacity of about 339 lakh MT of sugar. The capacity is roughly distributed equally between private sector units and cooperative sector units.

3.3 The Sugar industry has the following peculiar characteristics:

- a) The price of their main raw material, that is, sugarcane is fixed by the Centre/State, while the price of their final product, that is, sugar is market determined dependent on domestic and international demand and supply situation;
- b) The industry has cyclic nature, with extreme shortage of sugarcane/sugar and extreme over supply sugarcane/sugar year after year.

3.4 The Centre fixes Fair and Remunerative Price (FRP) on Sugarcane at which sugarcane is to be purchased by sugar mills farmers. FRP is decided on the recommendations of the Commission for Agricultural Costs and Prices (CACP), and after consulting the State Governments and associations of sugar industry. It assures margins to farmers, irrespective of the fact whether sugar mills generate profit or not and is not dependent on the performance of any individual sugar mill.

3.5 Besides the FRP, the States of Punjab, Haryana, Uttarakhand, Uttar Pradesh and Tamil Nadu have been announcing State Advised Price (SAP) of sugarcane, which is generally higher than the FRP. FRP and SAP for sugarcane for the last five sugar seasons were as under:

	2013-14	2014-15	2015-16	2016-17	2017-18
	[Rs. Per Quintal]				
FRP	210	220	230	230	255
SAP					
Uttar Pradesh	280	280	280	305	315
Maharashtra	-	-	-	237.5	-
Punjab	285	285	285	290	300
Haryana	295	305	305	315	325
AP	260	-	236-240	-	-
Karnataka	250	250	230-262.5	230-305	-
Tamil Nadu	265	265	285	275	285
Uttarakhand	285	280	280	307	316

3.6 Production and the general prevailing prices of sugar (at factory), and retail price of sugar over the years has been as follows:

Sugar Season	Production of sugar (in lakh MTs)	Range of Ex- Mill Prices (Rs./ quintal)	Range of Retail Prices (Rs./Kg)
2013-14	246	2420-3300	31.00-36.00
2014-15	285	2050-2860	29.35-35.87
2015-16	251	2350-3500	30.55-41.00
2016-17	202	3394-3712	40.76-43.48
2017-18	305	3570-2800	43.00-42.00

*Source: DoFPD

3.7 As on 31st January, 2018, canes dues owed by sugar mills to farmers were about Rs 19000 crore, as against Rs 9,500 crore a year earlier, largely on account of oversupply and consequential subdued factory gate sugar prices.

3.8 Ethanol is made from molasses, a byproduct emerging during the process of manufacture of sugar. It is used for three purposes, namely, for manufacturing alcoholic liquor for human consumption, as input for manufacture of chemicals and in other industry and for blending with petrol. It is a renewable and clean fuel. At present ethanol attracts GST @ 18%. However, the other bio-fuel, namely bio-diesel,

attracts 12% GST. That being so, there may be a case for reducing GST rate on ethanol so as to bring it at par with that on bio-diesel. Such reduction will also improve liquidity with the sugar mills, and in turn help them clear sugarcane arrears.

4.1 In the above background, the following proposals are placed before the Council:

- a) Imposition of cess at a rate not exceeding Rs. 3 per Kg. on supply of sugar [over and above 5% GST], collections from which will be utilised for interventions for the welfare of the sector in general and farmers in particular, keeping in view of the extreme cyclic nature of industry; and
- b) Reduction in GST rate on ethanol from present 18% to 12%.

4.2 Estimated revenue collection from proposed cess will be about Rs. 6700 Crore in a year (at Rs. 3 per Kg.), which will be used to create a fund, which will enable the Central Government for making prompt interventions to protect the interests of farmers, in view of the extreme cyclic nature of industry. To avoid complexities of multi stage cess, the proposed cess could be a single point cess, imposed only on supply of sugar from sugar mills. This cess will apply on imports of sugar also. However, all other domestic supplies of sugar, beyond the factory gate, will be exempt from the proposed cess.

4.3 Estimated revenue loss, on account of reduction in GST rate from 18% to 12% on ethanol, will be about Rs. 350 Crore in a year.

5. In view of the above, the Council may consider:

- a) Imposition of cess at a rate not exceeding Rs. 3 per Kg. on supply of sugar [over and above 5% GST], collections from which will be utilised for interventions for the welfare of the sector in general and farmers in particular, keeping in view of the extreme cyclic nature of industry. The Council may also authorise the Central Government to fix effective rate of cess within the proposed limit. Further, to avoid complexities of multi stage cess, the proposed cess could be a single point cess, imposed only on supply of sugar from sugar mills. This cess will apply on imports of sugar also. However, all other domestic supplies of sugar, beyond the factory gate, will be exempt from the proposed cess.
- b) Reduction of GST rate on ethanol from present 18% to 12%.

Agenda Item 9: New System of Returns Filing

Background: The return design committee had made presentation from time to time on its return design before the GOM. An alternative design was presented by the IT team on return design. The two designs were similar in many respect but on the issue of provisional credit and on the issue of reversal of input tax credit on default in payment of tax by the seller there were differences in the two models. Both designs were presented before the GST Council in its 26th meeting wherein it authorized the GOM on IT under chairmanship of Shri Sushil Kumar Modi to consider both the models and come up with one model for approval before the GST Council. Further consultations were held with trade on 24th of April, 2018 on the two models and also principles for a possible fusion model was presented to the trade. The GOM after taking due inputs from the trade and due deliberations directed that the principles of fusion model be presented before GST Council and approval for the same taken.

2. **Proposal:** The key attributes of the fusion model of the return are listed in paragraph 3 which may kindly be approved by the GST Council where after it would be forwarded to the Law Committee. Further detailing including designing of the return form and drafting of the law based on these approved principles would be carried out by the Law Committee.

3. Key features for design of new return shall be as follows -

3.1. **Monthly Return:** All taxpayers excluding a few exceptions like composition dealer shall file one monthly return. Return filing dates shall be staggered based on the turnover of the registered person. It is proposed that invoices for supply in a month be uploaded by 10th of the next month and large taxpayers may be directed to file return by 20th of the next month whereas the smaller taxpayers shall be given option to file return by 25th of the next month. Taxpayers who have no output tax liability and no input tax credit in any quarter of the financial year shall be given facility to file one NIL return for the entire quarter.

3.2 **Unidirectional Flow of document:** For availing credit an invoice uploaded by the seller shall be the valid document. There shall be no to and fro movement of invoice data and stepwise collation of data like in GSTR-1 → GSTR-2A → GSTR-2 → GSTR-1A → GSTR-3 process.

3.3 **Continuous upload and viewing of invoices:** Supplier shall be allowed to upload the invoices continuously anytime during the month and the recipient of the supply would also be able to continuously see the uploaded invoice.

3.4 **Transition:** There will be a three stage transition period in the process of the new return design getting fully implemented. In stage one, the present system of filing of return GSTR 3B and GSTR 1 shall continue. As GSTR 2 and GSTR 3 are suspended, appropriate mechanism to close the assessment cycle would be worked out for this stage. In stage two, GSTR 3B would continue and new return design would also come into operation. Provisional credit would continue to be available during this stage through GSTR 3B. GSTR 1 would stand withdrawn in the second stage. Information in relation to credit on missing invoice and rejected invoice may be collected during this stage and an option created in law to impose a fees on availing provisional input tax credit on missing invoices. This option would be exercised, if the provisional credit does not come down over a period of time which is necessary for completing the transition. In stage three, GSTR 3B would be withdrawn and also the facility for provisional credit would get withdrawn. The only return in operation thereafter would be the new return thus completing the transition. It is expected that stage two would not last for a period longer than six months. The details of the transition on above lines would be worked out in consultation with IT team and law committee.

3.5. **No provisional credit after the transition period:** It may be noted that there shall be no concept of provisional credit after the transition period is over and new return design gets fully operational. Input tax credit would be available only on the seller uploaded invoices.

3.6. **No system based credit matching:** There shall be no system based matching of input tax credit meaning that there shall be any need to upload both sales and purchase invoice by every dealer which is matched at the backend by the IT system. Acceptance of B2B invoice by the buyer on being uploaded by the seller shall form key feature ensuring that credit flow is based on invoices which represent agreed supply between the buyer and supplier. To simplify acceptance of invoices by the buyer, concept of deemed acceptance may also be introduced in the design.

3.7. **Simplicity of Return design:** Summary of outwards supplies and inward supplies akin to GSTR 3B shall constitute the main return. Annexure of invoices for outward supplies and inward supplies attracting reverse charge shall get populated/validated in the return. Taxpayer shall be given simple interface to upload the invoices. On filling the additional information required, if any, the return shall get generated on the IT system or on an offline tool to be provided.

3.8. **Partial payment of tax:** Partial payment of tax shall be allowed for B2C transaction but not for B2B transaction. In case no return is filed after uploading of the invoices by the seller, the uploaded invoices shall be treated as self admitted liability and recovery made without going through the process of detailed adjudication. As the decision on partial payment shall have implication on both IT design and law, final decision would be taken after due consultation with the IT team and law committee during the detailing exercise on the return.

3.9. **HSN:** B2B invoice shall be uniformly generated at the line item level with atleast four digit of HSN declared for the same. This shall apply to all the taxpayers making B2B supply irrespective of the turnover.

3.10. **Automatic reversal of credit:** There shall not be any automatic reversal of input tax credit as it increases the IT design complexity and legally may be difficult to sustain. Recover of tax not paid or the reversal of input tax credit, as the case may be, shall be carried out in terms of clause (k) and (l).

3.11. **Recovery from seller and reversal of input tax credit in exceptions:** Misuse of input tax credit due to default in payment of tax by the seller shall be controlled primarily by recovery of tax from the seller however reversal of credit from buyer shall also be an option available with the revenue authorities to address situations like missing dealer, closer of business by supplier or supplier not having adequate assets etc. The reversal of credit from the seller shall be through a due process prescribed in the rules.

3.12. **Preventive measures for controlling input tax credit:** To prevent misuse of input tax credit facility, adequate legal safeguards and IT facility shall be designed to block uploading of invoices in the subsequent month by a newly registered entity which has defaulted in paying taxes above a threshold limit. This would limit the possible damage and risk to the revenue. Similarly, safeguards would be built by blocking the upload of invoices for the existing units when they default in payment of tax above a threshold. Appropriate analytical tools would be built to identify high risk dealers, high risky defaulting dealers etc., and flag the same to the tax authorities for initiating compliance verification.

3.13. **Content of the return:** Return shall be simplified by reducing the content/information required to be filled in the return. It is suggested that the contents be examined in various categories such as – information needed for calculating monthly liability, information needed for final settlement which can

be part of Annual Return, information needed for Audit and Assessment which can again be part of the Annual return, information which need not be collected and any new information which may needed to be collected due to new policy decisions.
